In her concession speech in Wyoming, on Aug. 16, Congresswoman Liz Cheney decried the claim that the 30 FBI agents (who stormed Mar-A-Lago) planted fake info, to be "another lie" that will spur more 26-like violence. This is coming from the Establishment dark ^{perhaps most vociferously} ~~who adamantly~~ ^{by} decries "the big lie" that Biden did not win the 2020 election, when, in truth, all who use that phrase are the conspirators who are complicit in the big steal, at least in covering it up. ^{the actual} The big lie is that Biden won.

So when she so adamantly decries the notion of the FBI planting evidence in Pres. Trump's estate, that, most likely, is a good, unintended signal of where to focus. They requested surveillance video be turned off. Body cams were off in some cases (a crime in such contexts? - at least it should be).[#] They had motive, access - and reputation/portfolio of corruption.[#] They are imbued with the Marxist conspiracy as their intelligence and enforcement arm, to take down Free America.

Pres. Trump is their primary target. They are

treasonous traitors.

It's called projection: they are what they call us.

What was in the back pages they brought in. Besides usual, reasonable tools.
