### Movies/Shows

(8) "Sleep-over Bandits" - though best classic (1952) evil), it's a cute depiction of friendly team of bank robbers

(8.5) "Red Dawn" (1984 & 2014) - Depicts U.S. takeover by ~~the~~ Communists being opposed by patriot "wolverines". Doesn't come to close <sup>depicting</sup> to how terrible such a situation would be.

• "Young Sheldon" <sup>(30-1 CW)</sup> = George's advice to Sheldon about how to make a life believable: "details (made up)" [can be seen replete in how today's Marxist conspirators function]. #

(9) "S.W.A.T" (CBS) final episode. Prevent Green terrorists from blowing up much of LA by sabotaging the natural gas (?) pipelines beneath it.

(6) "Fire Country" & "Blue Bloods" final episodes - corruption [not revealing]; [DEF captain female lesbian awful]

# Sheldon gets called out on this and faces consequences.
