

# PREFACE to Sterling Editorials For Epoch Times

by Sterling D. Allan

Dec. 12, 14, 2022

I love and deeply relate to Rabbi Shlomo Riskin's statement,

"He who is one step ahead is a genius;  
he who is two steps ahead is a crackpot."

The material I present in these editorials/articles to The Epoch Times (TET) are primarily of the "one step ahead" classification of varying degrees, with a little "two steps ahead" material occasionally mixed in. Whereas my oft-mentioned book, *None to One: Evolving the Repentance Clause of Prophecy* (available from [TIndComing.com](http://TIndComing.com)) is in the extreme end of "two steps ahead" classification.

I woke up to the Marxist conspiracy to establish a New World Order dictatorship around the same time and way that Alex Jones did, by reading Gary Allen's *None Dare Call it Conspiracy* in ~1987. I <sup>paid</sup> close attention to that book, given its endorsement on the back cover by U.S. Secretary of Agriculture (and Apostle for The Church of Jesus Christ of Latter-day Saints) <sup>Ernest Besson</sup> who said, ~ "I wish everyone would read this excellent book."

Once I awoke, I could see extensive evidence of the conspiracy infiltrating every sector of society, as Besson warned adamantly and

repeatedly to the LDS community, who largely dismissed these warnings, as depicted in Ezk. 33:30-33.

My primary forte is in bringing a prophetic perspective to current events, drawing from the wisdom of the ages that comes into focus via a code I discovered in March, 1996 in the alphabetical sequence of words from inspired texts and the numbers associated therewith. I call it "Alphabetics" (AB). It expounds on the who's who, what's what, when, where, why, and how of the great and marvelous work of the Father in these end times in minute detail.

The very first word, alphabetically in the Bible is "H [Hebrew] א א, אב, ; father." That's fitting, inasmuch as God depicts Him (& Her)self as alpha & omega, the first and the last. Notice that "ab" is spelled "aleph, bet," the first two letters of the Hebrew alphabet. "Alephbet" is the Hebrew word for "alphabet." That the word for "father" and "alphabet" are essentially the same is in harmony with my above statement about the purpose and legitimacy of this code. What and how this AB code unveils valuable perspective is "two steps ahead" material and is primarily what gives me the wisdom you'll see in the "one step ahead" editorials.

If you see my editorials as meritorious

and something that The Epoch Times audience would appreciate and find beneficial, I'd beseech you to contact TET and encourage them to publish them. The "two steps ahead" material has given them enough hesitancy to not publish any of what I've sent them so far (93 and counting). But to their credit, they have given me a gift subscription, indicating that they are favorably inclined.

There was a great synchronicity with that, too, bespeaking divine providence. On 9/20, I sent them a request for a gift subscription, 70 editorials in. Then, on 10/23, as I was writing a follow-up letter, reminding them of that request, not ten minutes later, the first issue from them (#430, Oct. 21-28, 2022) arrived — just two days after it was mailed — extremely fast for prison mail.

I'm suggesting TET posts my editorials essentially all at once, like a cannonball splash, in a section labeled, "Sterling Editorials." I see it in keeping with the Isa. 49:2 sudden flash of light from a hitherto suppressed source.

Enjoy. ☺
