Tudor Dixon's Address in Alphabetic

by Sterling D. Allan, 228033

March 21-3, 2024

Last Feb., I realized that the P.O. Box 21085 address I had been using for Tudor was apparently no longer valid, receiving a letter back as undeliverable. So, I asked Mary if she would see if she could locate a valid mailing address. It took a couple of weeks before she relayed to me on 2/27 what she had found. On 3/1, I tabulated the ASCII sum of "Tudor Dixon; 6912 Windflower Way; Muskegon, MI 49444" = 4254. That's quite close to 4241 = "Bringing the King (& Queen) down of Heaven to Earth" — the title for the packet I've been preparing to send to Tudor, for which I needed to obtain an address.

The next morning, I think it was around 4 am, I had the impression to look up the ASCII sum of "She lives here." = 1365 and that it would tie in to her address. It does. ~~It's~~ It's one away from "Muskegon, MI 49444" = 1364. That meant a lot to me — that this concise string came to mind, and that it tied in in this way.

<3/22>

As for AB trees, OT def. H4254 (the ASCII sum of the whole address) derives from H2502. That number is a play on the previous prison address (P.O. Box 250) in Draper, prior to our move to the new prison. So, the new prison is ^{like} "250 - 2" (the second). And

(2)

"From H2502" relates to my pending packet to Tudor coming from this new person. H4254 means, "a mantle (as easily drawn off [Move]) :- changeable suit of apparel, change of raiment." In the context of an address, this relates to the transient nature of addresses from an eternal vantage point.

<3/23>

NT def. ^G4254, though not directly includes the word "place," which has obvious relevance to an address. And relating to this mission, it conveys the notion of stepping forward:

- G4254 to lead-forward (magisterially [HMITF]); to precede (in place or time) :- bring (forth [the kingdom of heaven to earth], out), go before.

That's the second def. on p. 1664 Str.07, which is the ASCII sum of "stepping forward". The word "forward" appears ~~12~~ 14 times on the page, including "G4260 to walk forward; G4262 something that walks forward; G4298 to drive forward; G4311 to send forward :- accompany, bring (forward)..."

The def. just after G4254 is

- G4255 to choose for oneself before another thing (prefer), i.e. to propose (intend) [to become bride] :- purpose [r.c., KofH2E]

In line with AB specificity, a transposition of 1663 = "stepping forward" is 1636 = "6912 Wind-Flower Way" (w/o hyphen).
