(9.5) Story TV: Top Secret UFO Projects: Declassified, Hacked

I saw this same series about 6 months ago. It's very bold/awake. Discusses:

- Many UFO/ET events globally
- Ancient Aliens shown in ancient artifacts
- U.S. & other govt. cover-up of UFO/ET.
- Insiders speaking out about it; E.T. autopsies
- Reverse engineering (doesn't get into application, successful building of anti-grav & free energy tech) (-)
- Event in Russia where UFO's activated nuclear weapons to near launch, to send a message about how horrible that would be.
- USOs (submerged) 200 miles
- International drive to disclose UFO info; using 3rd parties to do it indirectly, lest people realize our govt. has been lying to us for 70 years
- "More of a hope than a threat" - Story TV conclusion (if they could wipe us out, they would have already done it.)
- "Why are they waiting to make contact?" [A. II; 356-Ges. 9222] ^{Appendix}
