- ^{2/17} Why Japan selling off US dollars is major threat to US economy - on verge of fore sale of ~\$800 bil. dollars in US debt that could crash Treasury markets already teetering on edge. As for dollar, if Japan is about to flip to mass seller, that knocks out the single biggest overseas holder of US debt - at a time when #2 seller holder, China, is selling dollars hand-over-first.

House Hearing of Subpoenaed Kimberly Cheatle About 7/13 USSS Failure (Dir.) ②

- Cheatle: "The most significant Secret Service failure in decades." [Intentional dereliction with plausible deniability built in, so people would describe it as "incompetence"]
- Rep. Comer (R): Why wasn't ^{A CR} building included in 'perimeter'?
A. There was a [intentionally lacking] plan for overwatch
- Comer: There were several 'temporary' [plants] agents not usually assigned. A. See FBI. Comer: "Some of us have skepticism about FBI."
- Rep. Jamie Raskin (D): Why was Tr. allowed on stage when a 'suspicious person' had been identified [several times and ways]? A. 'suspicious person' phenomenon is not unusual. Only take limiting actions when a 'threat' is identified.
Raskin "A 20 yo climbing onto a nearby roof with a rifle is not a 'threat'?" A. This is an active investigation [obstruction of justice]
- Rep. Jim Jordan (R): "You haven't answered any questions" [Her stonewalling / obstruction of justice is strong evidence of her complicity. They wanted Tr. dead.]
- Rep. Mike Turner (R): "You look culpable"
- Rep. Michael Cloud (R): "You're in charge of investigating your own failure."
- Rep. Palmer (R?): "Cook's' explosive device (in car?) near pipeline (could be activated remotely) - potentially enormous danger. Failure (USSS) of enormous magnitude."
- Rep. Biggs (R): "she stonewalls us. I want a qualified commission to get real answers" [announced next day]
- Rep. Nancy Mace (R): Listed items/info requested

but USSS has not provided any of it

[= obstruction of justice / cover-up]. "You're full of shit today. Not being honest."

- Rep. Byron Donalds (R): "When did you identify the shooter to be a threat?" A. no reply [This is a crucial. I heard an early report that the sniper had a bead on the shooter before he started shooting but did not take him out. A video shows the sniper being surprised when he started shooting and taking a few seconds to regain the target and take him down. ^{Crooks}]
- Rep. Dan Goldman (D): "You've told the media more than you've told us."
- Rep. Burchett (R) "You're a DEI horror story" [Hired Ferguson, not merit. No, she's hired because she's friends with Borders, to do their will - take out Tr.]
- Rep. Boebert (R): "Have you communicated w/ wtt on secure comm app?" She paused for a few seconds, ~~weighing~~ weighing her answer - "no" [10e]. Q. Do you know how long the sniper had shooter in his sights before (he shot)?
A. "no order to hold fire. Don't have to ask permission."
[But hold he did. I saw on video.]
- Rep. Fry (R/D?) "When did (Crooks) go from 'suspicious person' to 'threat'? Seconds before shots fired [This is the key "plausible deniability" factor that is total BS. that any real, not "temp" temp / plant would see]. Q "How did the gun get on the roof?" [How did the ladder get there? More one asked this, that I heard, during this hearing.]
- Rep. Anna Paulina Luna, FL (R) "Second shooter on water

- lower (speculation about S why wasn't there ⁽⁴⁾ a USSR person there?). "She has purged herself, I'm asking/requesting an investigation. Every member of Congress (is in jeopardy because of) you.
- Rep. Longworth: "The fact that the AOL building was not included in 'perimeter' is [tantamount to treason]. Worst performance in (House) hearing history [obvious complicity in plain sight, not called out by Congress people trained ^{brainwashed} to put head in sand to blatant conspiracy all around them.] Put black eye on agency [And Congress for not calling out the obvious conspiracy.]
 - Cheatle: "I do occasionally use encrypted apps on personal device [is illegal; she then changed her statement, realizing this]
 - "What are you hiding? You're making this situation worse. [None Dare Call it Conspiracy]
 - Rep. Rashid, Closing: "Dem. & GOP both agree this was a huge security lapse [understatement ~~of the situation~~]; calling for resignation [No, much more. This is treason.]. 2) Failure of Congress to stop AR15 [Rashid wants to use this crisis to ^{and other Dems} trash the 2nd Amendment = treason!] [Tyrants hate armed ^{citizens}]
 - Rep. Comer, Closing: "Refusal to answer [obstruction of justice]. Today came unanimously in disappointment in Kimberly Cheatle [Blind to severity of her conspiracy]; have no confidence in FBI [which is over-run with co-conspirators to take down the Constitutional republic and replace it with a Marxist tyranny that would be hell on earth]. There's never accountability in this admin. [Because 'anything goes' among reprobates. They cover for each other.] <12:38 p M>
