### SOLID Seminar: Goal Setting

"When a group comes together around something they love..."  
me: "Speaking of Bruce's description of a common goal, I see  
SOLID becoming so excellent (amazing) that most everyone  
<sup>USCF</sup>  
in<sup>a</sup> is going to want to get here; and there will be an entire  
building (64 x 6.57 sections) where people will go to prepare  
to get here."

### SOLID Core class: Communication

Attitude attributes: "Honesty, Responsibility, Willingness, Open-  
mindedness, Humility, Caring, Objectivity, Gratitude." Spent  
the hour discussing measuring up. I commented that this  
excellent list needs to add "Diligence" [all-in] 'Synced-up' is  
touched on in eg. "open-mindedness." I also commented that  
it would be good to raise the bar for what is expected  
once out of prison - not just to get by, but to become a  
model citizen. All have great potential. I'm impressed with  
the desire to improve that I see in my fellow inmates here.
