I don't think conservative media (except maybe Frank Gaffney) hosts come even close to emphasizing how egregious Hunter Biden's treasonous dealings—closely in league with his conspiratorial dad (doing the bidding of the radical Marxist agenda)—is.

China is, considered by left and right to be America's greatest enemy. (I would argue that the Marxist, New World Order, World Economic Forum Conspiracy is our darkest enemy—spurring our demise from within, e.g. people like Biden and his evil son.) The Bidens' dealings with China have made them toxically beholden to the Chinese puppeteers. That is wants our demise, as do the Bidens. They're on the same team.
