

Reform Judicial System, H6666

I don't think anyone would not agree that the U.S. Judicial System is in need of major reform, especially in recent times with how politicized it has become against MAGA stars and causes.

First, in rendering commentary on this, I'd like to say that probably the biggest problem is pride/arrogance, which blinds those thus afflicted with a blindness to truth. That's not a good affliction for those administering adjudication.

That said, now, I want to share something I consider irrefutable as a divinely-appointed commentary on this subject, pointing both to the problem and the remedy. In James Strong's Exhaustive Concordance of the Bible, Old Testament definition # H 6666 includes the meanings, "justice, right, righteous act, righteously, righteousness..." Yes, that's an ominous number. I'll get back to that in a minute. The tie between "justice" and "right" is also clear and inspiring—and relates to what I said above about arrogance blinding one to truth.

However, even more significant than that is the meaning of "righteousness." Is that a word you'd associate with today's judicial system, generally speaking? Neither would I. Therein is the root of the problem,

②

and why the def. number 6666 is so fitting.

Does this fit all the blockage of criminals being prosecuted — especially in the deep state — and the righteous being persecuted/obstructed? Is Hillary Clinton in jail for the people she and Bill had offed? For her obliterated Benghazi emails? Is Hunter Biden in jail? Joe? What about all those cases regarding stolen elections? Where does a large portion of George Soros' dirty money go — George who should have a life sentence (unless he genuinely repents).[†] You get the idea.

As for the remedy, let me point out that in the Old Testament, a majority (54%) of the words translated "justice" are H6666. Ditto (56%) for the word translated "righteousness." Therein is how we rectify our broken judicial system. That can come from a mighty change of heart that comes to those who come forth with a broken heart and contrite spirit. (See also my 8/18/22 editorial, "Reform/Repent FBI, DOJ, IRS, CDC, NSA, EPA...")

What about the double standard of how the 66 patriots are being persecuted in jail/prison?
