

Saying "Incompetent" Empowers Conspirators' Plausible Deniability

There is no doubt in my mind that the Mid-term election was riddled with massive cheating. See my 11/9 editorial, "Stolen Red Wave." My evidence comes primarily from Real America's Voice (RAV) TV, which I have on nearly every waking hour.

Why do so many of those hosts falter when it comes to calling this out? Don't you compare notes/evidence?

The most frustrating thing is when it's called "incompetence." You know full well that the Marxist establishment lies and cheats. It's not accidental. This all was done on purpose by those who set things up.

When you ascribe it to "incompetence," you are complicit in the cover-up by playing to their plausible deniability angle, even if that is not your overt intention.

Don't ascribe on them your own noble intentions and motivations. What they're doing is treason. It's not a mistake. They are out for the destruction of our Free nation. (See my 8/19
