CNN Presidential Debate

[I thought CNN did a good, fair job of running the debate, equally enforcing its rules. Tr. scowled, barely smiled, should have tried to be upbeat, pleasant, as he is in his rallies. Exercised restraint, discipline. Felt cold.

Biden's content (despite propaganda awash) was solid, notwithstanding his senile appearance/demeanor. Female moderator looked terrified. Stage/setting was sterile/cold, notwithstanding its great appearance.]

Post-Commentary: "Biden Bombs" - Politico "Could it have been worse" - Schmidt "Holy S**t!, what are we going to do?" "Great night for Tr." "need to take nomination away from Biden." "Biden is not up for it." "Biden is toast." "Dems in full melt-down." "There are a lot of states in play" "Dems scared to death" - Jerry Sullivan

Scripts special on EV challenges. Grid not keeping up. EV batteries not holding up in cold. Range a problem 50% 46% not likely to buy EV next time. Travel 4 hrs, charge 4 hrs. 60% cost is a major concern in buying. \$55.4k ave. Charge costs 4¢/mile. 8% US purchase rate? 14% global 4% increase/year grid capacity. 40% somewhat likely to buy E.V. next time.
