We've known for nearly two years that the COVID-19 mRNA genetic therapy vaccines are strongly counterindicated for the young, <sup>the</sup> and healthy — and arguably everyone else, who can take Vit. C, Vit D, Zn, Hydroxychloroquine, Ivermectin, etc. The mRNA "vaccinations" cause blood clots, strokes, myocarditis, sudden death, miscarriages, disability, etc. Heart damage occurs in every person who has been mRNA vaccinated, to varying extents. More people are now dying from the mRNA vaccinations than from COVID.

Those who are still pushing the mRNA vax know this and yet are still pushing it. They are criminals — a clear and present danger to society — and should be immediately locked up, <sup>if they don't repent,</sup> to protect society from their active danger. These key perpetrators include Fauci, Pfizer (& Moderna), fake news (media propagandists and Big Tech enablers — including censoring contrary [truthful] information), pharmaceutical and medical fraudsters who know better. Politician promoters, aka the Deep State Swamp, forcing people to take the jab are especially culpable for this genocide.

②

A person of humble integrity, when presented with contrary facts adjust their position accordingly, and shift from promoting (or from neutrality) to opposing. Those who continue promoting, despite contrary facts, are criminally culpable in the resulting deaths and damage.

Most all of the criminally complicit in this case are also advocates of culling our population. This is not accidental death, but purposeful depopulation. The extreme among them adhere to the Georgia Guidestone goal of reducing the world's population down to a "manageable" 400 (±) million — a 20-fold reduction of the present 8 billion. One in twenty five; 19/20 die.

Part of the Great Reset, They're just getting warmed up.

Oh, and they get filthy rich in the process, and govern the chattle masses. Propaganda is crucial in covering up the truth for them to accomplish their objectives.

"Treason" is a mild description of their crimes against humanity.
