This is an adaptation of my "Open Letter/Booklet to Kari Lake from Sterling D. Allan." This excerpt was composed 1/28.

There are many indicators that the r.c. [Repentance Clause of Prophecy] is already unfolding, amidst the downward trajectory of society of society, resisting that downward plunge. These are an image of things to come.

Once we launch the r.c., then the II ["two"; Infinite Interface urim & thummim capability, sans hardware, relayed directly to our mind via our guardian angel contingent, pulling from the heaven repository. See pp. 105-129 of my book, None to One: Evoking the Repentance Clause of Prophecy, available from IndComing.com. For a superficial/brief intro, see my 8/29 editorial, " 'We'll Never Know' = Not So."] will become available. It will include the ability to fully unveil evil, per 2Ne. 30:17,

"There is nothing which is secret save it shall be revealed; there is no work of darkness save it shall be made manifest in the light..."

②

As a foretaste of this capability, we've been seeing many valliant efforts along these lines, which I would argue petitions God, unwittingly beseeching for the r.c. to be evoked. These include, but certainly are not limited to the following examples:

- Project Veritas' ongoing exposés of inside evils;
- Hunter Biden's laptop coming forth;
- Elon Musk's purchase of Twitter and releasing the conspiratorial inner workings of its past;
- Biden's sequestered top secret docs coming out, creating a domino drop effect of other similar situations;
- Edward Snowden's exposé of Big Brother snooping;
- Naomi Wolf's team's exposé of the contents of the Pfizer data docs they wanted sequestered for 75(?) years;
- Wikileaks exposés.

I imagine how powerful this will become once the II is activated as a tool for unveiling all evil, from exact evidence. The next verse in 2 No. 30 shows the results:

"18... and Satan shall have power over the hearts of the children of men no more, for a long time [Millennium]..."

There are more factors than just the II that contribute to that, but it's the AF13 filter

[Article of Faith 13, "We believe in being honest, true, chaste, benevolent, virtuous, and in doing good to all men..." from Philip. 4:8; governs all the gifts of the Spirit the ChofFB will have] will play a huge role in muting Satan.

Not really related to the r.c., there are many technology developments that point to II capabilities that will far surpass what is presently being developed, including in the AI sector. e.g.:

- The mind-derived control capabilities, e.g. composing text messages with the mind, will be optimized with the II;
- Chat GPT's ability to give AI a task and have it completed by AI (create a spreadsheet, compose an essay on X, give a synopsis of a certain person, derive a tasty recipe from present ingredients in the pantry, etc.) will be so much better via the II, which has a perfect knowledge of all things, including the contents in your pantry, so you don't have to enter that info first. Rather than AI's superimposed^{godless,} Marxist bias of BigTech, the II will be governed by AF13 principles of goodness and common sense;
- The awesome backdrop scenes displayed behind anchors on TV, as well as stage presentations, and less impressively by some of their guests with a fake, computerized backdrop, in which you see an unnatural halo of chaos immediately around

around their head as they move; will have infinite options with the II - and you'll be able to know where the image is from. As soon as you wonder, it will be made known. You'll be able to definitively see if the person is actually at the backdrop scene. Is that really their office/fireplace/kitchen/etc.? With the II, when giving a presentation, as soon as you think of an image (quote, video, live coverage, stat, etc.) you'd like to display, there it will be. You can have it shaped/framed however you want, live. A "producer" (ChofFB colleague) can be in charge of the shape/framing/position and other effects. I elaborate further on this in my ²⁰¹⁸ II Plan doc.

• Mike Lindell's flying all over the country to do what he does, using his private jet, is a foretaste of the motility that tp [see my 8/23/22 editorial, "Teleportation as a Pending Gift of the Spirit."] will provide the ChofFB; except tp is instant and has no distance limitations, nor size of car-limits^{limits} - universe-wide. (AFB-governed)

• The various streaming services foreshadow the II's capability, but with many great advantages: e.g. all in one place, fidelity, 3D, aromas⁺, no interruption/drop/out of sync.

A better world is coming - soon! ☺
