MAGA conservative leaders need to go on the offensive to flip the January 6 unselect committee's bogus narrative.

The Marxist conspirators, including RINOs, know full well that the 2020 election was stolen. They know they're lying. Subterfuge is their primary modus operandi. They're the insurrectionists who are trying to destroy the Constitution-based freedoms of our nation. They're the Fascists. They're the Nazis. They're the racists.

They set up Jan. 6 to turn into a riot. They planted the FBI & Antifa agents provocateur. They withheld the 20k national guard Pres. Trump requested. They planted the pipe bombs. They're the ones who should be behind bars, or worse, for their treason — if they don't genuinely repent.

The MAGA participants actually exercised profound restraint, generally, being slow to heed the provocateurs, not bringing guns, urging peace.
