Trump Handshake Dream

I had a great dream last night in which I was able to have a fun conversation with Pres. Trump while shaking his hand. This came after I had watched him shake hands with a couple of other world leaders. I'm not sure (don't remember that part of the dream clearly) who they were, but they were along the lines of Putin and Arnold Schwarzenegger. In those handshakes, he gave a very testosterone-heavy, eye to eye probe/stare, then looking away. With me, the eye-to-eye look was genuine, friendly, and sustained.

As we shook hands with me, he humorously said something along the lines of, "I can't believe how reluctant people are to admit they know you!"

In response, I said something along the lines, "I've said in my writings that I see you being President of the United States through the Millennium [7/25/22 ^{Blog post} Editorial]" I then cited Job 33:25 "His flesh shall be fresher than a child's; he shall return to the days of his youth." I then said that this will apply to all who become joint heirs of Christ who wish to ~~become~~ live through the Millennium, which I see him becoming.

I'd say, "By way of loving criticism, you need to internalize Jesus' admonition to love your enemies." Now I was awake (~4:59 am). [7/27/22 ^{2 days later} Editorial]
