# Infinite Interface → II (Technology 2.0)

“And there shall be among them those who will not believe it, although a man shall declare it unto them.” (3 Nephi 21:9)

## Introduction:

### What is the II?

The Infinite Interface (☐ hereafter II, or “two”/“to”) is a “screen” view that is made possible by the angels of God projecting an image and audio in full fidelity into your mind as if you are “watching” it on a II shape in front of you, with “Infinite Interface” written over the top of it – in any language.

Controlled instantaneously by *mind commands*, the II can be used for things like:

- searching; • reading; • viewing; • composing; • location positioning; • communication;
- interaction with e-gadgets (technology 1.0); • group interactions; • pictures / videos / movies; and
- virtual / induced reality experience including viewing present, historic, and future material (if your mission involves that).

The angels know you, what your strengths and weaknesses are, your history, your special talents, your God-calling / mission in life, and what mood you’re in; and can therefore present the **most suitable content** to interest, motivate, and empower you.

II will be a **gift from God** to humanity for having achieved the launch of the kingdom of heaven on earth, without tribulation, through the repentance of a sufficient core of people (Isa. 66:7,8; 3 Nephi 16:13,14; 2 Ne. 28:17; Ether 2:11; Jeremiah 3:8; 2 Chronicles 7:14).

### Other Relevant Passages

(See also “Part 3: Key Scriptures Pertaining to II.”)

- Isaiah 65:24; 139:12; 52:8, 15 (Mosiah 15:19; 16:1); 9:2; 62:1,2; 35:5; 49:22; 43:8; 42:6,7; JST 42:19-21
- Mal. 4:6; Ps. 137:5; 1 Sam. 16:7; Joel 2:28; (Moses 1:4); 1 Cor. 13:12; 15:45-49; 2 Cor. 3:17,18; 4:1-7; Colos. 1:12,15,31,40
- 1 Ne. 22:14,15,20; 16:29; Jacob 4:13; Moro. 4:10; D&C 1:2; 121:33; 45:58; 19:10; 84:98

### Target Market

Once the II capability launches, I envision most everyone on the planet using the II much more than present society uses e-gadgets (e.g. computers, phones, notepads, readers), because its quality will be so superior, its ease of use will be even easier. No one is limited from using it. It is free and can be created anywhere on anything.

### “Technology 2.0”

The Infinite Interface (abbreviated as “II”, spoken as “two” or “to”; also “I to I” or “eye to eye”) qualifies as “Technology 2.0”, where “Technology” refers to the more modern usage referring to all things computers and Internet, as well as the mechanical devices derived therefrom.

That appellation is actually an understatement considering how much of a quantum leap the II will be beyond what we have now in terms of power and usefulness in its ability to compute, communicate, personalize, facilitate, empower, uplift and remedy.

It is “heaven on earth” capability that leapfrogs from the best technology that humankind has manifested. Present technology has been inspired of heaven, whether or not the human instruments for bring these things forth

acknowledge that origin. This “Technology 2.0” might be considered “phase II” of the prior decades of the preparatory technologies that enable this spring-boarding to the II.

### Real – Not Fantasy

Before you dismiss this as “impossible” or “out of touch with reality,” please give me at least a few minutes to present the key points of support for this. The capabilities behind this functionality have been demonstrated historically and are prophesied to be part of the coming kingdom of God – which I believe could be emerging very soon and very rapidly (the “why” behind that would take a book to properly explain, but I’ll present a thumbnail overview below in Part 5). This will be facilitated and underpinned by II.

### Analogue: NDE Life Review

There have been an estimated 14 million near death experiences documented (2 out of 1000 people, or 0.2% of 7 billion), so this is not a rogue, rare, nor “fringe” phenomenon.

Of the books I’ve read on this subject, a common feature of most of these is a life review, in which a person’s entire life passes before them – but not just their life, but a view of how their choices effected other people. This more than comprehensive presentation happens as if in an instant.

It illustrates God’s ability to present information, including visual, audio, and environmental factors, directly to the mind. So that portion of what I envision for the II has precedent, capability-wise.

### Analogue: Akashic Records

Coast to Coast AM listeners and other “outside-the-box,” metaphysical, “fringe,” types of people (I use these as terms of endearment) will be familiar with the term “akashic records,” promoted by professionals such as Ed Dames.

For those not familiar with this term, my understanding it that it is a metaphysical reference to an ethereal body of information surrounding the Earth that is accessible through meditative means.

I bring it up because it provides a good analogous scenario (could be synonymous) to what I call the “heavenly repository” of information that the angels access to display to your mind via the II.

### Capability Precedent / Prophecy

Also, let’s consider a historic precedent.

Rewind back 2,000 years to the Americas. According to the Book of Mormon, at the time of the crucifixion of Jesus in the old world, there had been massive calamities in the Americas; after which, the surviving, more righteous inhabitants heard a voice. It bemoaned the cities that had been destroyed by fire, or sunk in the sea, or buried in the earth.

The record says that “There was a voice heard among all the inhabitants of the earth, upon all the face of this land...” (3 Nephi 9:1; 10:3)

Let’s think about this from a *sound logistics* point of view. This wouldn’t have been done via microphones and loudspeakers and sound waves. Such technology didn’t yet exist. The voice heard most likely was not via sound waves that diminish over distance. Had it been so, the sound would have been so loud at the point of origin that it would destroy the hearing of those nearby and probably do other physiological damage to both humans, animals and plants; while further away, it would have been barely audible.

I would posit that the voice was most likely transmitted directly to the minds of every inhabitant, not via sound waves and eardrums. So everyone heard it at the same time, at a comfortable volume.

Now, let’s consider a parallel situation in our future.

Sterling D. Allan, 228033; U-Prep class: Write Your Own Business Plan; Jan. 14, 2017

Prophecy states, in the second verse of the LDS Doctrine and Covenants:

**“The voice of the Lord is unto all men, and there is none to escape; and there is no eye that shall not see, neither ear that shall not hear, neither heart that shall not be penetrated.” (D&C 1:2)**

That wording is similar to Revelation 1:7 (also D&C 101:23):

**“Behold, he cometh with clouds; and every eye shall see him...”**

This seems to be depicting a global incident similar to the one described historically, but this one will not just be heard but seen – by everyone worldwide.

Again, I would posit that this will not be transmitted via a physically visible image or physically audible sound; but will be transmitted directly to the minds of everyone, simultaneously.

### **Overview / TABLE OF CONTENTS**

**It is that capability that is at the heart of the II, the Infinite Interface.**

**In Part 1, I'll share the functionality that I envision for the II, it's basic capabilities and features.**

**Part 2 will discuss some business aspects related to the II. The basic service is free, but it will have revenue sources and outflow from those into the cost of administering the kingdom of God on earth as well as providing humanitarian grants and micro-loans for business start-ups. It will provide a means for everyone to receive, store, and remit funds.**

**Part 3 will contemplate some Industry Ramifications of the II capabilities.**

**In Part 4, I'll share a few scriptures/prophecies that I see pointing to this ability that will accompany the soon-to-arrive kingdom of God on earth.**

**Part 5 will cover the rapid rollout scenario (“IIInd Coming”) I envision for the emergence of the capability. It doesn't involve patenting, research and development, investment, manufacturing, marketing, sales. It's an idea, which could explode globally overnight, once the capability is unleashed. So in Part 5, we'll address what that entails.**

**Part 6 presents some Promotional Text.**

**In Part 7, I'll present a few Legal considerations.**

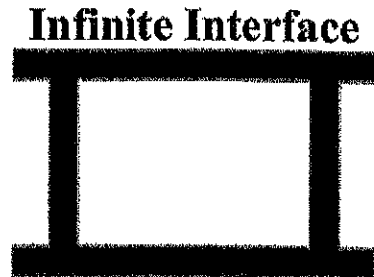

**That is followed by Glossary and Contact information.**

## Part 1: II Functionality

### “Infinite Interface”, Briefly

Here is how I envision the Infinite Interface working.

You draw a rectangle (e.g. 3 feet wide by 2 feet high, but any shape or size would work), and over the top of it you write “Infinite Interface” (in any language), or abbreviated: **II** (with space between the two I’s with the top and bottom lines extended so it appears like a screen). With that, the “screen” is activated. A blind person could image such a screen in their mind and it will activate, and they will now both be able to see and to use all the II functionality.

It will work in any language and translate to / from any language, perfectly, written or spoken, including animals and extraterrestrials.

The image you see is being conveyed to your mind directly via your guardian angel contingent (hereafter “angels,” which operate on behalf of God, in the functions of God).

The content is derived from the best that humanity has come up with -- the best for you, as determined by the angels. They know you, your talents, your interests, your mission in life, your strengths and weaknesses, your mood, what you need to be doing at this point in your life, what you need to do to improve your walk with God, what needs to happen to overcome or work around your weaknesses.

But you retain your agency -- your right to choose. Everything is controlled by mind commands -- your thoughts, which the angels are able to perceive and respond to -- immediately, with no delay.

The “database,” though based on human-created content, is the heaven repository of that content -- in its original, pure, ideal form. So video content, for example, will be in 3D, full fidelity both in image and audio. The grainy video you shot 15 years ago is now transformed as if you are watching it in real time in the same place as where it happened originally.

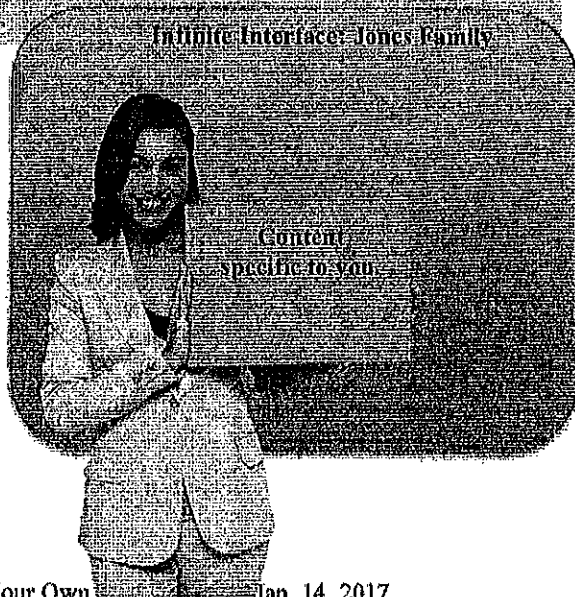

And the hand-written text you composed 35 years ago is transcribed, with spelling errors, punctuation, and usage errors fixed -- staying true to the original meaning, in the truest sense. (The bad spelling, punctuation, typos, etc., are not a fair representation of the thoughts behind the composition.)

### Sample

For example, imagine such a “screen” on display in a frame in the entry way to your home, with the heading: “Infinite Interface: Jones Family” (let’s assume that is your last name).

By default, the first thing everyone in the room would see would be content that would be most important / uplifting for them to see about your family, pulling from photos, videos, books, articles, news clippings -- all the content about your family that has ever been produced, whether rough draft or final.

Everyone in the room will be seeing something different,

because what is important / uplifting for one person will not be so much for the next person.

The 15-year-old boy in the room, who has an important future with your daughter, for example, will be seeing a video clip – 3D, full fidelity, both visually and audibly – of her giving a special address to her High School class. For now, that is going to intimidate him, but over the next couple of years it will serve as a point of motivation for him, to rise up to his full potential (aka “perfection”).

The child in the room will be seeing a clip of your youngest daughter doing a science fair demonstration, which will spur an idea for him for an assignment he has in his math class.

The mother visitor in the room will be seeing a clip of Mrs. Jones doing a fundraising pitch to the Lyon’s club for a local homeless shelter, which will spur an idea for her for the upcoming Sunday School lesson the mother visitor will be giving.

The father visitor in the room will be seeing a clip of Mr. Jones giving a keynote address at a recent international conference, which will spur an important conversation between them that evening that will lead to a breakthrough for a problem he’s been struggling with in his scout troop.

The young adult visitor will be seeing a video collage the teen posted on YouTube about the Jones Family last June, which will inspire him to do something like that for his youth group.

As mentioned above, the angels know you, what your needs are, what your life mission is, what mood you’re in, and what would best benefit you right now. With that knowledge, they will present the best possible content that will inspire you, educate you, reprimand you, encourage you, bolster you, and spur you to action – or just entertain you, if you need a break to relax for a bit.

### **Stipulation: Content Must be AF 13 Compliant**

You parents, who are aware of the pitfalls of the Internet, might be put on edge with this notion, imagining unbridled teenagers and others going wild with such capabilities.

But remember: The venue here is angel-fed information from heavenly repositories of the best human information.

A good way to describe this built-in filter (via the angels) is that all content needs to be Articles of Faith 13 (derived from Philippians 4:8 and 1 Corinthians 13:7) compliant.

That is the last verse of LDS scripture, whether in the “quad” (Bible, Book of Mormon, Doctrine and Covenants, Pearl of Great Price) or in the “triple combination,” containing the last three of these, as it is often published, with the Bible being published separately, due to size considerations. It’s more expensive to publish all four volumes on thinner, sturdy paper.

The point is that this can be considered the “omega” verse of LDS scripture. And I would argue that it has great content to serve as a touchstone of what will be allowed to be transmitted via the II.

13 We believe in being honest, true, chaste, benevolent, virtuous, and in doing good to all men; indeed, we may say that we follow the admonition of Paul—We believe all things, we hope all things, we have endured many things, and hope to be able to endure all things. If there is anything virtuous, lovely, or of good report or praiseworthy, we seek after these things.

I abbreviate this “AF13.”

A condensed version that captures the relevant essence would be:

13 We believe in being honest, true, chaste, benevolent, virtuous, and in doing good to all men... If there is anything virtuous, lovely, or of good report or praiseworthy, we seek after these things.

If you are viewing content that has mostly AF13-compliant material, the angels can **blur** (visual) or **bleep out** (audible) the material that is non-compliant. For example, if you are out in public on a visual call with someone, and something in the background, un-noticed by you, is non-AF13-compliant for the person on the receiving end, it can be blurred or bleeped out, automatically, by the angels. And this scenario would not have any ramifications to you and your responsibility to not convey non-AF13-compliant content.

People who repeatedly try to remit non-AF13-compliant content will be warned, and if they continue to attempt, the II will stop working for them. When they view a II screen, a message will be displayed saying: "You need to repent. The II can only be used for AF13-compliant <link> material. Come forth with a broken heart and contrite spirit, acknowledging that you have been out of line in your repeated attempts to violate this provision; and commit to abide by this provision, and your service will be restored."

Considering that financial functions can be accomplished, stored and accessed via the II, you can see that staying AF13-compliant, therefore, becomes a mission critical requirement, motivating people to stay true to these principles.

## Some II Applications

The number of applications for the II is endless, but here are a few to get you familiar with the notion

- **Communications:** The II can do anything your phone or video conferencing can do, but with full fidelity, audio and visual. Think of the person you want to call, and even before you say in your mind "call Sally," she will be pinged, and will respond if she's available. She can instantly send a thought message: e.g. "catch you in 5 minutes."
  - **Animal-Human Communication:** (and Animal-Animal) is possible via the II, similar to the human language translation capability. Ditto extraterrestrials.
  - **Filter:** You can set whatever parameters you want to filter incoming communication requests. The default setting is, "Let the angels decide, and serve as my receptionists." If you run a business, the angels will know who in your business would be best able to handle an incoming request. No more endless menus that go nowhere.
- **Composing:** E.g. text, images, graphics, architectural drawings, and financial plans. Imagine it in your head, and it shows up on the screen. Instant editing. Indefinite memory. Integrate movement into drawings, e.g. of mechanical devices, or art.
- **E-gadget Interface:** The II will be fully able to interface with any e-gadget (computers, phones, notepads, readers) for which you have authority to access, regardless of location.
  - E.g. you can access your iPhone remotely via the II while hiking outside the service range of any mobile carrier (if your phone is on and charged).
- **Group Play:** With the thought command, "group play," a group of people can watch the same content together if they want, such as in a theater setting (usually monetized) or a school, business, conference, church or family setting. So everyone will be seeing the same content, synchronized, so they will be responding (e.g. laughing, wowing, crying, etc.) together. During the advertising portion, each user can be seeing unique content of interest to them. In a monetized group, the ad revenue will primarily go to the host venue, with a percentage, e.g. 10% (default), going to II.
  - **Opt-out:** Any individual in the group can override the "group view" to see something else, if they want. The moderator (and others in the group) can view a display of how many and who are opting out.
  - **Disruption Prevention:** If someone who opts out is on the verge of being disruptive, the angels will give them a warning: "CAUTION: Remember, you are in a 'Group View' setting. Please don't disrupt the others." If the user is gets too close to disrupting, their individualized view will be deactivated.
  - **Sub-Group:** If a sub-group within a group setting wishes to break off into a separate group view, e.g. to brainstorm some aspect of the group discussion, they can easily do that.
  - **Group Design:** Imagine the possibilities of groups of designers working together via the II to create masterpieces of science, art, music, architecture, machinery, crafts, education, etc. You are not limited by the location of the participants, who could be anywhere.
- **Induced Reality:** In contrast to "virtual reality" (simulations), "Induced" reality pertains to actual situations, including: (1) being able to experience the *environmental conditions* of the other party in a real-time communication; (2) being able to do *travel (virtual)*; (3) *future view*; and (4) *historic view*.

- **Environmental Conditions:** In addition to visual, audio, and aroma; other environmental conditions of a scene can be conveyed direct to the mind of user upon request. This virtual reality could include a sensation of wind, temperature, smoke and other elements in the air or conditions in the ground, such as earthquakes. The angels will know if a user is getting overwhelmed and can deactivate these functions and remind the user that it is just “induced reality.” Furthermore, the content will be AF13-compliant. (See also “Induced Reality”)
- **Future View:** The II will enable authorized persons (e.g. with a prophetic calling / mission) to visit future times / places. The angels will determine suitability / accessibility. (You will not be able to interfere with the situation you are accessing.)
- **Historic View:** The II will enable you to visit past times / places (that are not privacy protected), though access may be limited in some contexts to authorized personnel, such as family. The angels will determine suitability / accessibility. (Like in the Future View, you will not be able to interfere with the situation you are accessing.)
- **Personal Interface:** Probably the most intense Induced Reality experience will be to go into “environmental mimic” mode with someone, so you are positioned as if with them / in them, minus actually being them, not hearing their thoughts. This can be done live, recorded, historic, or future. (See also: Future View, Historic View, Virtual Reality, Travel, Environmental Conditions)
- **Travel (Virtual):** Because II screens are replete in nature and in man-made structures, you can “go” virtually, anywhere that is not privacy-protected and within AF13-parameters via mind commands, instantly.
- **Movie Teasers:** The filmmaker can produce a wide array of teasers, knowing that the angels will show the one that the user is most likely to resonate with (if it is a film they think the user should see).
- **Name Badge:** Have a II screen on your shirt / top “II: Your Name,” so as people view your badge they see the content that the angels deem will be best for them to know about you in that setting.
- **Picture Frames:** Imagine what could be done with “picture frames.” Any size, any shape, any content – as long as it’s AF13-compliant. “Show the northern cliff of Kona, Hawaii, live.” If you think Harry Potter movies were cool, that’s nothing compared to what can be done with the II.
- **Positioning:** GPS-like capability, but with unlimited pinpointing accuracy and no “loss of signal.” The angels will always know precisely where you are and can render that information in x, y, z: longitude-latitude-altitude coordinates, and relate that to human map databases. Some of that data may be monetized (e.g. pulling from copyright map systems).
- **Reading:** Like the Kindle, but without limitation (other than AF13 compliance). Bookmark via mind command. “Go back to where I was.” Note taking / shuffling in margins; cross-links. Permanent, if you want.
- **Research:** All the “search” functionality of the Internet is accessible via the II, with the following differences/advantages:
  - Instantaneous results. Even before you’ve completely “thought” the query, the angels will know what you’re asking and will begin showing answers – exactly what you’re looking for.
  - The angels know you, your needs, your mission, and they know the intent of your question, and they know what the best material in the world is relative to your query, and will deliver that to your screen. In fact, often times our questions are inspired by the angels, so of course they know what the question is going to be that you are thinking.
  - Content needs to be AF13 compliant.
  - Not only do you have access to Internet content, but all compositions, publications, writings, video, hand-writing–of any language–in the history of the planet will be available, that is not privacy protected. If the content that would be best suited for you is monetized, you will be given the terms for receiving that content.
- **Search/Access:** The II can search for and access any content anywhere that is AF13-compliant and is not privacy protected, whether located on the web, some obscure rare collection in a library, or buried in a cave or landslide – or even no longer existing on earth. Anything that has ever been composed will be accessible. This holds true for written, spoken, visual, etc. content.
- **Security:** With II screens (cameras) around your premises, no intruder will go undetected. Think of this simple command: “Have there been any incidents of which I should be aware?” Instantly you would see anything relevant. Furthermore, you would be alerted the moment something relevant was happening. And with the unlimited memory of the II, there is no time that cannot be accessed instantly, with full fidelity. “Who is that?” is answered instantly. The most valuable aspect of this is its deterrent factor.

- **See What They're Seeing:** If you notice someone enthralled by something they're viewing on their II, and you're impressed (intuition/inspiration) to see it, too, you can merely evoke the command: "See what they're seeing," and as long as it's not privacy protected, you'll be able to watch along. And they can know you're watching on.  
Some of the most popular viewing could be "See what x is seeing."
- **Suggestions:** Do you have a suggestion? The angels can let you know instantly if the receiving party has already received the suggestion. If not, your suggestion can be sent (via angels) to where it will be most likely acted on. The receiver can know how many people are making that suggestion. Or, if the suggestion is moot, the angels can display a relevant response, e.g. "That book is out of print." (e.g. a typo report.)
- **Telepathy:** For users who are adequately developed spiritually (able to properly control their thoughts, and comfortable with someone hearing their thoughts), they can use the II to communicate telepathically, after receiving permission to do so from the other party.
- **Translation:** Instantaneous translation to/from any language, not just human, but animal-human, animal-animal, as well as extraterrestrial-human. The translated voice can be made to sound like the voice of the speaker like a voice-over, or it can be a distinct voice heard (e.g. delayed) over the speaker with reduced volume – all settings can be adjusted by the user with thought commands.
- **Virtual Reality:** Pertains to simulations, and will find a wide array of applications with the II. See also "Induced Reality".
- **MUCH MORE**

## Miscellaneous II Attributes

I envision that the II will include the following additional attributes:

- **Advertising:** See "Advertising" in the "Financial" section.
- **Appearance:** The "screen" is unlimited in size, shape, framing, and default settings – as long as it is AF13 compliant. You could even imagine the screen in your head (e.g. with eyes closed), and it would activate until you shut it down. You could look at a brick on a wall, with "Infinite Interface" over it, and it would activate.
- **Agency:** All II content will be in keeping with the user's freedom, never compelling or forcing.
- **Aroma:** Not only can you see/hear in perfect fidelity, but even the aromas present in the source can be conveyed perfectly, including from historic or even ancient settings, because the repository is in heaven, where that information is retained. Like other functions, this can be de-activated/re-activated or increased/decreased with a mind command.
- **Audio:** Perfect fidelity; comfortable volume by default. A particular voice can be isolated / enhanced, including background voices.
- **Bandwidth:** Irrelevant. No limits on "amount" or "rate" of "data." Everything is instantaneous.
- **Camera:** The input "port" for the camera, by default, is near the center of the II screen, so as you have visual communication with someone, you will be looking eye-to-eye with them, as you would in person. The viewing/recording function, visual and audio – and aroma – can be pulled from any II device or any e-gadget camera, whether or not it is turned "on." But the II shape as found in nature can also serve in this function: such as rocks, trees, clouds; or in man-made structures, such as bricks, doors, windows, sidewalk and road segments, floor and ceiling tiles.  
In other words, pretty much anywhere you want to view you can, from any angle you want, that is AF13-compliant and not privacy protected.
- **Control:** Via the user's mind / thought commands
- **Cost:** Basic functionality is free for everyone: no contracts, no subscription fees. Monetized content can be purchased, but mostly pertains to specialized content, such as copyrighted music, films, products, services.
- **Database:** All human-created content through earth's history that is not privacy protected; and which is AF13 compliant. Marginally AF13-compliant material will contain blurring and/or bleeping of non-AF13-compliant material, via the angels.
- **Default:** On regular screens, the default will be to include visual and audio content; but a user can change their default settings to include aroma and/or environmental conditions. On public II screens, you can set what the default portrayal subject or content will be (e.g. "Infinite Interface: Your Subject" or abbreviated: "II: Your Subject"); but any user can override that default setting to use that screen however they wish (within AF13 parameters).

- **"Did You Know?":** By default, each day, the angels will present at least one "Did you know?" factoid, such as II capabilities you might not yet be using, which they think would be beneficial to you. These factoids could also be information pertaining to your mission in life, or about one of your friends or colleagues, etc...
- **Disabling:** Any II screen can be shut "off" or disabled instantly via a mind command, pertaining to one screen, or a group of screens, or all screens everywhere -- for you. They can be re-enabled in like manner, per your preference. Individuals who consistently attempt to violate AF13 parameters, notwithstanding reminders / warnings; will lose access to II functionality until they repent and commit to abide by AF13 parameters. (See "Content Must be AF13 Compliant")
- **Distance:** The II will work anywhere in the universe, with instantaneous communication capability (with other locations / individuals who have arrived at the kingdom of heaven on earth level).
- **Hacking:** No such thing as "hacking," because angels run the interface. Likewise, someone using the II to access an e-gadget cannot use the II to hack something on the e-gadget or network.
- **Illiterate:** Those who cannot yet read can easily use the II because all incoming/outgoing content can be voiced audibly.
- **Interface:** Direct to your mind via angels / God.
- **Language:** See *Translation*
- **"Live":** If what you are viewing is live, and there is a reason to notify you of that (if it is not obvious), you will see some kind of transparent "live" text image, probably in 3D. The corollary of this is that if you are viewing a recorded video that says "live", the angels are likely to superimpose a transparent "not live" text over that.
- **Memory:** Unlimited
- **Multiple Tasks:** There is no limit to how many "views" of things you have open at once on a display. For example, an entire 14x8-foot wall could make up your screen, and you could have 1000 things open at once, shuffling content around.
- **One Screen at a Time:** No matter how many II screens might be in your field of vision, only the one you are looking at, focused on, will activate, so you'll not be subjected to a flood of noise / chaos. You might choose to change your settings so that other screens will have a still shot of what content might play there, if the screen is set to a specific topic.
- **Password:** Not applicable. Only you access "your" content via angels. They transmit it to your mind. If you want to "privacy protect" something, it's done. If you want to extend limited access, it's done. (Within AF13 parameters. Hiding of sins / crimes is not permitted.)
- **Power:** No electricity needed; no batteries; no cords; and no need to charge.
- **Privacy:** The angels will have regulations about what is private and what is public. Individuals can specifically request such shielding as well.
- **Safety:** The angels are providing the content. If you enter a dangerous situation, you will be alerted to that, and the II functionality will be subverted to allow your attention to be placed on the situation, such as a rock on a sidewalk you are walking down and haven't noticed.
- **Security:** No such thing as "hacking," because angels run the interface. Concerns associated with technology's "cyber-security" are moot with the II.
- **Screen:** Any size/shape (that is AF13-compliant)
- **Signal:** Anywhere you are, the II can receive and transmit anywhere on land, sea, air, space, including galactic and intergalactic.
- **Spam:** Will not occur on the II, because the angels will only deliver content that is relevant, interesting, useful, and important to you.
- **Speed:** Instantaneous
- **Stability:** Never malfunctions, never crashes, never gets "groggy", always functions at optimal level
- **Video:** Perfect fidelity, 3D, if relevant.
- **Volume:** The default setting will be that which is most comfortable for you; but you can raise or lower the volume with a mind command, including muting. (See also: "Audio" above)

### God-like Ability

Perhaps you might think, "But wouldn't this be giving mankind God-like capability, at least when it comes to information?"

I would respond: "Exactly. Remember Ps. 82:6 'It is written, Ye are gods'."

See the list of scriptures below that show how this is consistent with scriptures / prophecy.

## Ramifications

The arrival of the will be a major turning point in earth's history.

Briefly,

- The II will inspire people to find and fulfill their God-callings. *When people do what they love, they are six times more effective than when they do what they hate working for 'the man'*. Imagine a world in which all of humanity, not just a remote minority, is doing what they love, what they're good at, and finding great joy therein. "Utopia," is how such a civilization has been described.
- Technology, Science, Business, Society will have a "conscience" factor introduced, since the II will not allow conveyance of material that is not AF13 compliant.
- Satan will be bound, because the advantages of the II will be something everyone will want to utilize, and non-AF13-compatible endeavors will not be supported by the II.
- All segments of society, especially technology, science, and education will be able to advance at a rate hitherto unknown because of the tool set II provides.

(See also "Part 3: Industry Ramifications")

## E-Gadget Matters

As mentioned above, the II will be fully able to interface with any e-gadget (computers, phones, notepads, readers) regardless of location. They have to be on and functional; and you have authority to access them, of course. (Remember that if it's the content that you need, the e-gadget doesn't have to be on, because that is stored in the heaven repository of earth information, instantly accessible via the II.)

## Converting II to E-Gadget Formats

Most things composed via the II can be "downloaded" onto a regular e-gadget. (Done via a thought command, to "copy" the composition to a program on an e-gadget, which will be restrained by the speed, memory, and capability limits of the e-gadget and its software.)

For example, a document written on the II could be imported into *MS Word*; an image composed on the II could be imported into *Paint*; a song composed on the II could be converted to *Finale*'s parameters; and many things could be converted to Adobe's *PDF* format.

The angels, who inspired these software programs in the first place, know how they are designed and how best to "translate" the II-created material into that venue. They know what you intended in composing, and what aspects of the software will best render that composition. And not only can they convert it to look/sound how you wanted, but they can also do so optimally so that the memory limits of the e-gadgets are used more efficiently and rapidly.

The II will have far more flexibility (infinite) in composing than most software programs. So when you compose something in the II, there are likely to be aspects that will need your input in getting it to render properly in the software program, per your preferences. The angels can both recommend which program in your arsenal will render your composition the best, and convert it into that program. The conversion process is likely to require your input in deciding how to modify certain things in order to fit within the parameters / limitations of that software. To make this clear, the II can display decision points in 3D so they stand out (if that is your preference). And at the speed of thought, you can review those decisions.

For example, maybe the font you chose in the II will push a page beyond a single-page limit you have, so you'll be asked to either make the font smaller, or possibly remove some text or change the margin size.

## Composing in Software-Compatible-Mode on the II

If you plan on converting your II-created composition to an e-gadget, you'll probably want to keep those software parameters in mind to expedite this conversion process.

Alternatively, the II will enable you to compose in "software-compatible-mode", as if you were doing it on your e-gadget, except with the speed of thought that is possible via the II. So when you're done, the "copy" process from the II to the e-gadget won't involve any conversion.

### Not All E-gadgets will be Gradually Phased Out

The superiority of the II for most all functions, even from the beginning, point to existing e-gadgets being phased out, but not entirely.

A human soul / mind is required for II functionality, and inanimate devices do not have not soul / mind. Anything that requires non-human interfacing with the tangible world will require tangible devices.

- **Automatic controls in transportation** (traffic lights, engine controls, driverless capabilities, auto pilot, etc.) will be increasing, not decreasing.
- **In order to print out something** (the full gamut of printing, including paper, color, 3-D, CNC), you'll need to send your material to a computer that interfaces with a printer. It's conceivable that next-generation printers might be modified to receive II commands, e.g. having your main software programs built in, such as Word, Finale, etc., thus able to receive your II-created content. It wouldn't need the monitor, keyboard, mouse, etc., because all of that functionality is possible via the II.
- **Medical devices** that interface physically with living beings will retain their value, except where II information shows them to be not so great.
- **Environmental devices** that measure/report physical phenomena, such as multimeters, weather data collectors, etc. will retain their usefulness.

### Not "Disruptive"

You need not be concerned about the jobs lost by people employed in e-gadget technologies. There will be many new opportunities arise because of the II, jobs/opportunity that will be at least just as exciting, but usually more so than what they were doing in the e-gadget industry.

As for investors who might loose money because of e-gadgets being mostly obsoleted; they knew, when investing, that every investment has risks. There will be plenty of new opportunities for them. They are likely to take a needed hit in their egos as they are humbled down to an egalitarian level with the rest of humanity. And on the other extreme, the lowly inventors, researchers, and others will be able to rise in the respect and appreciation shown them for their service. And substantial wealth is likely to flow to them as well; so the low are elevated.

### Huge Impact on the Broader "Technology"

The impact of the II on non-e-gadgets, such as mechanical devices, transportation, motors, energy, etc., will be profound, jettisoning them forward.

Not only will it accelerate the invention/creative speed, but also it will accelerate the networking with other people/talents required to bring good ideas forward to practical use and dissemination. This will hold true for Technology 1.0 advancements as well.

## Part 2: Financial (II Business)

There are several things we'll be covering in this section:

- Price: Underlying Capability is FREE
- Monetized Content
- Advertising
- Remitting Payments to II
- Applying for a II Humanitarian Grant
- Applying for a II Micro-Loan for Business Start-ups
- P.II: Receiving, Storing, Remitting of Funds
- Options for Receiving of Funds
- ISI: Financial Standard – Immutable Sterling Instrument

### Mission Statement

II Business administers the business functions involved in the Infinite Interface (II), whose purpose is to empower humanity to each find and effectively carry out their God-calling(s) in life, which will entail using their talents and interests to serve humanity, finding great joy therein.

### Price: Underlying Capability is FREE

There is no overhead in this II capability. Angels are more than happy to provide this service for everyone. They've been anxious to implement it for a long time.

No one is held back from using this service. Once we've entered the "kingdom of God on earth" phase, anyone on the planet can access this capability.

The only exception will be people who repeatedly try to remit non-AF13-compliant content, as described above; and their service can be restored once they repent and commit to abide by the AF13 stipulation.

### Revenue Sources

#### II Revenue Uses

The II revenue will be used for administration of the kingdom of God, for humanitarian causes, and for micro-loans, and possibly eventually larger loans as well.

### Monetized Content

An exception to free usage is monetized content, such as the sale of products and services; certain copyrighted documents, movies, professional music intended for monetary gain; financial transactions.

The default rate for hosting monetized content via the II will be what it presently sells for online. Once your revenue income gets substantial, (e.g. above \$100 USD), someone in financial authority in your organization will be contacted via the II to arrange a preferred method for transferring those funds as they come in. (It can be transaction by transaction, instantaneous, via the P.II capability described below.)

If you are not online, the default rate for conveying monetized content via the II will be 10%, to be remitted to II.

The default rate for financial transmissions is 1%.

### Negotiation

If you think a default rate is too high/low, you can **negotiate** a reasonable rate via your angel(s). Present your case via the **II**, clearly, concisely, stating what rate you think, would be reasonable; and the response will be given, such as “approved” or “but what about \_\_\_?”

## Advertising

Advertising will turn an important corner with the **II**, because angels will serve it only to people for whom it is applicable, helpful, important, and interesting. There will be no such thing as spam. Advertising falls under the “monetized content” parameter, but will be negotiated individually, via the angels.

Because the content is being transmitted ~~direction to the mind via the angels; they know if you are “paying attention” or not; and will not convey info during “down time,” e.g. while you need to pay attention to things like walking, talking to someone in person, performing a task.~~ So you can be assured that the duration of an advertisement presentation is receiving the attention of the user.

### FOR EXAMPLE

You write a brief summary of what you want advertised, what demographics you want to target, what key terms and phrases that are relevant (a paragraph description would be better, as the angels can interpret that best), what your advertising budget is, what outcome you want, a preferred landing page/content for various key demographics types, and a proposed rate for impressions/durations for users who achieve your desired outcome. Ask, “Is this acceptable?” and you **II** will have your feedback re: “yes” or suggested modifications. ~~then launch the entire project, could take a minute to do a simple project.~~

I recommend a presentation format that starts short, then longer and longer, so as long a person retains interest in the presentation, they can be receiving additional information.

The default rate for advertising will be based on duration as well as “action” objectives such as purchasing or contracting.

### Rates (per person viewing):

(These default/proposed rates might seem high, but bear in mind that the viewing audience is actually interested and paying attention to the content. Subject to change – likely down.)

- Very short: 5 seconds: \$0.1
- Short: 15 seconds: \$0.5
- Medium: 30 seconds: \$2
- Intermediate: 60 seconds: \$10
- Long: 5 minutes: \$30
- Longer: 15 minutes: \$60
- “Documentary”: 60 minutes: \$200

## Manipulating Ads on Tech 1.0 Devices

Many advertisements on today’s e-gadgets would not be suitable for display on the **II**. So as you view an e-gadget via a **II**, rather than just show a blurred-out portion where an ad is located, the angels may modify those algorithm so that something that is suitable to you is displayed instead, from that same network database. This will motivate the existing infrastructure to clean up its act as most everyone will rapidly migrate to primarily using the **II**.

## Remitting Payments to **II**

(See Part 7: Legal Considerations”)

## Applying for a **II** Humanitarian Grant

With the II receiving funds from monetized content conveyed through its resource planet-wide, it's conceivable that its budget for humanitarian projects could be quite robust.

The II makes it easy for people with great ideas to submit proposals for funding, receive timely responses and receive funding.

Once your proposal is composed (written, spoken, and/or visual) on the II, you submit it with a simple mind command: "submit this proposal to II (the business) for funding" or "please list some local referrals" (e.g. possible people to help brainstorm the idea, partners for managing, volunteers to implement the idea). If there is an established AF13-compatible entity designed to handle such projects or grant requests, the II may refer you to them.

When your proposal is submitted to II, the angels will review it, and if it is meritorious ready to go, a response will come back: "Approved. Funded."

Funds will come via your preferred method of receiving funds. If you are using PII, funds will immediately, ~~instantaneously be available (See "PII: Receiving, Storing, Remitting of Funds")~~

~~If your proposal needs some revision, then that request will be given, e.g. "Please provide:~~

- ~~1. Mission statement~~
- ~~2. Brief summary of the project~~
- ~~3. Outcome objectives~~
- ~~4. Brief overview of how the project addresses the four aspects of body, mind, heart, spirit (8<sup>th</sup> Habit, by Steven Covey)~~
- ~~5. Duration of the project: e.g.: one-time; short duration; longer duration; ongoing~~
- ~~6. Milestones for objectives to be accomplished over (e.g.) the next 6, 12, 18 months~~
- ~~7. A list of key personnel, their skills, roles in the project~~
- ~~8. Possible monetization facets of the project – revenue sources~~
- ~~9. Budget for how the funds will be spent~~

### **Applying for a II Micro-Loan for Business Start-ups**

II-Business will also provide micro-loans (e.g. \$25 -- \$100,000) for business start-ups. (That cap amount is likely to increase over time.)

The same principles apply as for applying for a humanitarian grant.

~~A key difference is that you will be expected to return the loan with interest (thanks for the loan). The default interest amount is 50% of the loaned amount, which will be used to support II endeavors. II would also likely wish to be included on an ongoing basis in the success of the venture, e.g.: (default) 1% perpetual royalty on products/services sold.~~

### **PII : Receiving, Storing, Remitting of Funds**

The II will have PayPal type of capability to receive, store, and remit funds, and draw from or deposit to your bank account(s). This function will be called the "pay-to," aka "pay-two," abbreviated: PII. It will enable you to make purchases, receive payments, and store your balance, or automatically withdraw from your bank account of the stored funds are less than a purchase amount.

The core functionality will be free.

The default rate for the transmission of monetized funds, incoming or outgoing, will be 1%.

### **Options for Receiving of Funds**

If you don't have a PII account, you can receive funds from II via all the typical methods, e.g. PayPal, wire transfers, check, cash. You can change your "default" at any time with a simple mind command (fraction of a second).

### **ISI : Financial Standard – Immutable Sterling Instrument**

The primary monetary standard that the II will use is the ISI, which will be based on reliable metrics, such as the documented 2000 (year) USD, a loaf of wheat bread, gold, silver, past average annual income numbers. This will be the monetary standard for the Millennium.

### **Applying for a Job / Career with II**

If you perceive a need in the II Business for which you have talent and interest, and feel drawn to this, chances are, you are foreordained to be part of our team.

To apply, use a process similar to the methods described above for applying for humanitarian grants, microloans, or advertising.

Write a proposal via the II. If the angels need more info (actually, it's you with the need to work through certain things in your mind / heart), you'll see a follow-up request, e.g.:

- The position you envision
- Your talents / skills for that position
- Your mission statement
- The amount you would like to be paid

You might want to sit on it and run it by your family / friends.

Then submit it, and the angels will review it. If it is approved, you'll know immediately, and you can immediately begin.

If something else comes up on your screen, it could be the angel's way of recommending something else for you to consider, or something else to add to your proposal to modify it.

## Part 3: Industry Ramifications

The II will profoundly impact every industry, government, school, home, and person – every segment of society – in a profound way. Think of how computers have impacted these segments during the “Technology 1.0” era we’ve been in in the last half-century, and you’ll grasp how significant the impact will be of the II, which leapfrogs that – a quantum leap ahead.

Here are some illustrations to stimulate your contemplation of how the II will impact you and the segments of society in which you personally are involved.

### Medical Industry

#### Incident Reporting

In most public settings, when there is an accident, there are many people around, and nowadays, with most everyone having some kind of e-gadget on them, you might wonder: If someone has called emergency dispatch (e.g. 911 in the U.S.A.) Because of the plethora of gadgets, I would imagine emergency dispatch receives an abundance of calls for each incident.

With the II, though, the first person who reports the incident will alert emergency dispatch to the situation, who can immediately view the scene because (1) they know the exact location of the person who called; (2) through the II they can view the scene from any angle / distance as well as hear conversations.

Thereafter, as others wonder (e.g. “ask” mentally) if someone has called it in, their II will immediately let them know it has been “already reported.”

If a witness has training that gives them a perception that could be valuable to the emergency responders, they can submit that, and it will be relayed to the proper person(s) who will benefit from that information.

#### EMTs

Emergency Medical Technicians will have the ability to

- Bone up on information they need to refresh their memory while travelling to the scene of an accident / incident needing urgent medical assistance.
- Become familiar with the patient’s medical history / situation prior to arriving on the scene.
- Replay a recording of the incident as well as factors surrounding the emergency medical situation.
- See the patient in real time, even while travelling to the scene, to assess their condition, temperament / mood, and surrounding environment.
- Communicate with people on the scene to prepare the scene prior to their arrival.
- Communicate with an available medical doctor if needing that interface.
- The M.D. will be able to see / hear (even smell, or access other environmental phenomenon of relevance) of the scene with perfect fidelity, as if present.
- Transmit to the Hospital all the needed information while travelling to the hospital.

#### Nurses

Nursing functions will be enhanced by the following capabilities:

- Each patient’s physical monitor information can be readily accessed, at the speed of thought. “Let me see Mary’s BKG,” and instantly it appears.
- Emergency conditions can immediately be brought to the attention to the most capable nurse available to respond appropriately.
- Patients in need of a personal touch (e.g. consolation, question answered) can be brought to the attention of a nurse able to respond in a way that will be most compatible / soothing / informative for the patient.

## Staff

(See "Businesses" section)

## M.D.s

Here are some highlight capabilities to consider for Medical Doctors:

- The II allows the doctor to mentally / virtually travel within a patient's body (at any magnification) to see (1) the present status *in situ* (~ in place); (2) historic status, to review the etiology of development of the malady.
- "Patient Reports" can be composed in their mind as they walk down the hall to see the next patient.
- It will be easy for the medical staff to contact a doctor and relay important information, which will be presented to the doctor in a timely way without interrupting something else they first need to focus on.
- Peer-to-peer consultations between doctors can be at the speed of thought.
- Patients with the proper authorization (e.g. set up with monetized account) could also ask questions of their doctor and receive a timely response -- if such information can't be relayed from other available information that the angels can present to the person via the II.

## Residency

With the II's capability to provide induced reality and virtual reality, many situations that will be beneficial to an M.D. in his/her "residency" phase of training can be accomplished without actually being personally present. And they can tag along with the best doctors on the planet in their field of specialty, with no limit on the number of students viewing virtually. They can view from any angle or distance. And they will have access to historic settings as well.

## Legal

Because the II allows for historic access (from any angle / distance), the events leading up to, and the resulting scene of an accident / incident, can be meticulously reviewed to leave no question as to how it happened. Personal witnesses will not be needed.

With people taking responsibility for their health and decisions, and with forgiveness rising to its proper status, suits against errors will fizzle to nothing. Only intentional abuse would be grounds for legal action; and that, too, will fizzle to nothing in the kingdom of God on earth.

## Research

Literature searches for medical research will be profoundly enhanced with the II because:

- You think the question, and the best answer text immediately shows up.
- Presenting reference citation information is instantaneous, when requested.

For clinical-related studies:

- The mental process of learning via the II allows you to mentally / virtually travel within a body to see how things work *in situ*, reducing the amount of clinical studies to be done.

## Schooling

Medical training can be significantly facilitated, as students can be presented the best material suited to them to learn what they need to learn for their specialty / application. This will reduce both the cost of instruction as well as the amount of time needed for that education. But, more importantly, the quality and results of the education will be significantly improved.

## Alternative Healing Modalities

The ability for you to “be your own doctor” will be profoundly improved via the II because:

- With a simple query, you can get the best information available, not just “establishment” medicine, but new methodologies and modalities coming forth that have not yet been recognized or adopted by the medical establishment.
- If a medical facility or training is not needed, why go?
- Alternative specialists in your region able to address your need can be instantly brought to your attention.

## Energy Sector

Given that exotic clean energy has been my career since 2002, brainstorming how the Energy sector will be impacted by the II should be pretty easy for me.

### Inventors

The II will profoundly improve an inventor’s ability to invent, test, improve, and get networked with others who are able to help them bring their idea forward to market.

### Open Source Development

I see “open source” more as “open license,” which allows people to develop business opportunities while requiring that a certain royalty percentage (e.g. 5%) be remitted to the inventor (team) for usage of the idea. An up-front agreement is not required to proceed. Only successful ventures are then expected to remit a royalty on all sales, including plans, kits, components, finished units, and franchises.

The II will greatly facilitate the ability to open source plans for viable clean energy devices:

- Streamline R&D improvement of designs
- Streamline testing / validation of new designs
- Provides very clear communication between R&D participants as well as entrepreneurial business roll-out of the products into the marketplace
- Provides very clear views of the technology for those seeking to replicate it

Using these principles, with facilitation from the II, a new idea could go from idea to market penetration in matter of weeks.

### Research & Development

R&D in all industries will be significantly improved because of how easy it will be to display a new concept for others to consider, to communicate (pass to another person) the design, to clarify meaning, to modify a design with new iterations, to review or refer to previous iterations. Key moving parts can easily be notated.

When you want to build and test a design, working up plans for the build will be very easy. Sourcing affordable components to build that design will also be much easier. Coming up with a shopping list of parts in an easy-to see and review format will also be much easier, with no limitations on presentation (screen) size. So an entire assembly can be fully reviewed to consider compatibility and suitability, before any purchases are made.

Likewise, the suitability of testing conditions and parameters can be easily notated and reviewed before any actual testing takes place, saving on time and expense.

Ditto for certifications of performance, durability, and variability.

### Utilities

Utilities can easily gain data about their system through a II, including:

- Condition of equipment
- Weak points of equipment
- Upcoming load

Sterling D. Allan, 228033; U-Prep class: Write Your Own Business Plan; Jan. 14, 2017

- Past load
- Present load statistics: inductive, resistive load percentages; industrial load percentages

New system design and system modification proposals will be easily brainstormed via the II. The trend will be toward distributed energy solutions, rather than centralized. More and more, the grid will become more of a “battery” or “back-up” function for clean energy generation modalities coming online.

Utility billing and collections will be very easy via the II, including tracking the performance and contribution of new energy modalities.

### Energy Technology Businesses

Networking the proper skill sets for your business will be streamlined via the II, including:

- Finding the best technology to tackle
- Finding particular types of individuals / skills
- Finding funding (See also Microloans section)
- Finding suitable facilities

### Sales

The angels know your product, and they know the customer base, and can match these two very easily. If you have a quality product that people need, they can make it easy to bring the product into awareness of the people who will benefit by your product. You’ll still need to come up with advertising content (see “Advertising” section), but the matchmaking becomes very easy with the II.

Inferior products will be hard to sell via the II, because the angels have no reason to help you promote them, unless there is a niche market that might benefit from them.

If you have an excellent product or service, you will do well.

The II will make globalization of products very easy, including the setting up of distribution networks, notifying of local adaptations required.

### Customer (Usage / Shopping)

Customers will benefit profoundly via the II, which will help them find the best energy solution for their particular need, combining factors such as cost, versatility, expandability, durability, portability, distance.

### Entrepreneur Opportunities

As new clean energy technologies emerge, new job / career opportunities will likewise emerge. The II can help entrepreneur’s brainstorm workable scenarios and secure productive partnerships with people, both local and abroad.

### MORE

Here is an abbreviated list of industries and how they will be affected by the II.

- **Architecture** – Creating new designs will be made very easy, as will getting peer review of those designs.
- **Amusement Parks** – virtual rides. Imagine being able to put yourself in the shoes of an actual historic hero and virtually physically reenact key events. Imagine doing the same for some of those astonishing YouTube video stunts you’ve seen: virtually reenact those from the vantage point of the person doing the stunts.
- **Banking** – will gravitate to PII. Fractional reserve banking will be eliminated, replaced by steady monetary systems, e.g. ISI.

- **Business** – Imagine customer support where you are automatically directed to either (a) the best support documentation that readily addresses your query, or (b) a person/contact who can resolve your query in a timely manner.
- **Correctional System** – II will enable inmates to communicate readily with the outside world and with each other. Governments will have no justifiable reason to try block such communications because they are AF13-compliant. So not only will inmates be able to learn and improve themselves, but they will be able to actually run businesses on the outside to support their family and manifest their callings in life.
- **Education** – Lifelong learning will be the norm, beginning in infancy. Some may still attend brick and mortar schools for the regimented structure. But many are likely to do better in more of a self-learning, or home school type setting, with the II as the primary tutor.
- **Entertainment** – Quality will increase tremendously. Smut will fizzle. The industry will become AF13 compliant.
- **Government** – Citizens will readily get answers to their questions about why things are done a certain way. Good suggestions will get to where they can make a difference. Freedom will be the foundational principle.
- **Home** – Parents can know where their children are at any moment, and see what they are doing. The II will provide great instruction / guidance, enabling children to grow up without sin.
- **Legal Sector** – People can use the II to get quality / accurate legal information. Lawyers, like doctors, will still be needed when a person with professional experience / training is needed.
- **Media** – Will willfully clean up because of AF13 stipulation for content. The demand for trash will subside.
- **Real Estate** – Virtual tours will be a snap. The II will enable potential buyers to spend as much time as they want inspecting a property with as much or little detail as they want, from any angle. They will also be able to view past incidents relevant to the property that are important for them to know about, and how they were addressed / remedied.
- **Sales** – Individual products could have a II screen: “Infinite Interface: Product Name” and shoppers would be able to see information about that product that would be of most interest to them. That could include footage of another customer using that product in a way that you can relate to. Junk will fizzle because there will be no market for it.  
As you walk into a store, you could ask the II, “What would be of most benefit to me here?”
- **Transportation** – Better than GPS guidance, collision avoidance, coordination. Boon to inventing / materializing cleaner alternatives as well as amazing improvements in speed, weight, versatility (e.g. jet packs, flying ships, anti-gravity, flying saucers). Intergalactic travel will be in our near future, given pending intergalactic alliances because we take the repentance path and avoid crashing our civilization as most do at this juncture.
- **Travel** – Virtual travel. Imaging where you want to see and you’ll see it, from whatever angle you want. You can include environmental information including aroma, temperature, wind speed, ground vibrations. You can even travel to past or future times if your mission allows it. (Can’t interfere / interact, only observe.)

## Part 4: Key Scriptures Pertaining to II

If something this significant were actually destined to show up along with the arrival of the kingdom of heaven on earth, you would think that there would be some prophecies about it. Here are a few that I see as relevant.

### Liahona: An Analogous Capability: 1 Nephi 16:28,29

The Book of Mormon features a device called the Liahona, a small sphere and spindle which was given to Lehi and his family as they traveled through the wilderness from Jerusalem to the new world beginning 600 B.C.

The Liahona is probably the closest analogy to today's cell phones. It provided directions for the travelers, and it had text messages from God.

The II is a hybrid of modern e-gadget capabilities, combined with the Liahona-like God element that makes it possible and increases its functionality.

28 And I, Nephi, beheld the pointers which were in the ball, that they did work according to the faith and diligence and heed which we did give unto them: [(1) AF13-compliance requirement; (2) additional capabilities available for those who "heed" the word of God.]  
29 And there was also written upon them a new writing, which was plain to be read, which did give us understanding concerning the ways of the Lord; and it was written and changed from time to time, according to the faith and diligence which we gave unto it. And thus we see that by small means the Lord can bring about great things."

Regarding simplicity, by your simply writing "II" creates your "screen", and the angels display the content direct to your mind. Or you could look at a brick on a wall or other shape, imagine it is a II screen, and it will activate.

While the II has far greater functionality than the Liahona, it is also a "by small means" mechanism, and it also has faith-heed component to access advanced capabilities such as history and future content; and it will stop working if "abused" by someone repeatedly trying to convey non-AF13-compliant material, until they repent.

### Pour Down Knowledge

#### D&C 121:33

D&C 121:28-31 prefaces the 33 punch line verse by talking about:

28 A time to come in the which nothing shall be withheld, whether there be one God or many gods, they shall be manifest.

29 All thrones and dominions, principalities and power, shall be revealed and set forth...

30 And also, if there be bounds set to the heavens or to the seas, or to the dry land, or to the sun, moon, or stars—

31 All the times of their revolutions, all the appointed days, months, and years..., shall be revealed---

By the way, regarding numbers of planets and gods, here's a passage (Psalms 147:4,5) that includes the word "infinite" (as in Infinite Interface) that addresses this matter:

4 He telleth the number of the stars; he calleth them all by their names.

5 Great is our Lord, and of great power: his understanding is infinite.

There are trillions of galaxies in the perceivable/viewable universe with our technology today, each galaxy having hundreds of billions of stars.

Back to D&C 121, next comes the punch line, which is very much in keeping with the II capability.

Sterling D. Allan, 228033; U-Prep class: Write Your Own Business Plan; Jan. 14, 2017

I should preface this by saying that this is a reference I was referred to when on 11/18/16 I asked, “Are the angels going to be ready to handle the load of work they’re going to have once II rolls out?” I opened to pp. 220, 221 Index’ 13, with entries Miracles, Mission, Missouri River.

33 How long can rolling waters remain impure? What power shall stay the heavens? As well might man strength forth his puny arm to stop the Missouri river in its decreed course, or to turn it up stream, as to hinder the Almighty from pouring down knowledge from heaven [II database pulls from the heaven repository of earth-created content] upon the heads of the Latter-day Saints.

Yes, the wording of that verse limits the outpouring to the LDS, but other verses expand it to all lands, nations, and peoples, as the knowledge of the Lord fills the whole earth.

### Isaiah 11:9 (Hab. 2:14)

“...for the earth shall be full of the knowledge of the Lord, as the waters cover the sea.”

### Joel 2:28

“I will pour out my spirit upon all flesh...”

### Satan Bound

#### Children Shall Grow Up Without Sin: D&C 45:58,59

Imaging the rising generation using the II instead of present e-gadgets that easily foster iniquity. With its AF13-compliance aspect, only that which is good will be presented on the II. Non-AF13 material will not be conveyed. You can see how this prophecy can be fulfilled:

58 Their children shall grow up without sin unto salvation.

59 For the Lord shall be in their midst, and his glory shall be upon them, and he will be their king and their lawgiver.

### 1 Ne. 22:26

25 And there shall be one fold and one shepherd; and he shall feed his sheep, and in him they shall find pasture.

26 And because of the righteousness of his people, Satan has no power; wherefore, he cannot be lapsed for the space of many years. [1000, according to Rev. 20:2]; for he hath no power over the hearts of the people for they dwell in righteousness, and the Holy One of Israel reigneth.

### Eye to Eye

#### Isaiah 52:8

A key prophecy that I see foretelling the abbreviated name, II, is Isaiah 52:8: “for they shall see eye to eye, when the Lord shall bring again Zion.”

There is no technology 1.0 that I know of today that enables “eye to eye” interactions other than when two people are physically present with one another. But the II enables such interactions via its “screen” and “camera” capability, so that when you communicate with someone, it can be as if you are in the same room, even though you might physically be located on opposite ends of the globe – or universe.

“They shall see eye to eye” can be rendered: “They shall see I to I.” As mentioned above, if you draw two Roman numerals, I, with separation between them and an extended line at the top and the bottom, it resembles a screen.

Sterling D. Allan, 228033; U-Prep class: Write Your Own Business Plan; Jan. 14, 2017

Twenty years ago, I put the first half of Isaiah 52 to music in order to memorize it; and in the way I remembered it twenty years later has that phrase as the closing of what I have done so far in the composition. “They shall see eye to eye, when the Lord shall bring again Zion,” is the closing line and climax of the song.

That shows the foreknowledge of God in how these things have unfolded, as well as my foreordained role to be involved in this.

#### Isaiah 52:15

Isaiah 52 ends with the II-relevant passage: “For that which had not been told them shall they see; and that which they had not heard shall they consider.”

#### Isaiah 52:10

Verse 10 is also II-relevant: “All the ends of the earth shall see the salvation of our God.” That relates to how the capability will be made available to everyone equally.

These three passages appear on page 925 of the LDS Bible, which has relevance to me – the one presenting this capability to humanity. The definition of “sterling” in English refers to “925 parts silver, 75 parts copper.” And my dad’s birthday is 9/25. My middle and last name come from him: **David Allan**. Verse 6 on that page states: “Therefore my people shall know my name [Sterling David Allan]; therefore they shall know in that day that I am he that doth speak: behold, it is I.”

#### Mosiah 15:29; 16:1

The Isa. 52:8 key “eye to eye” verse above is cited and enlarged in Mosiah 15:29; 16:1

“16. The time shall come when all shall see the salvation of the Lord; when every nation, kindred, tongue, and people shall see eye to eye and shall confess before God that his judgments are just.”

Two important aspects are brought up here.

1. This points to this II capability being globally accessible, none being held back.
2. It also describes the aspect of people coming to an awareness of how we as a civilization dodged a bullet – averting the destructions and captivity to which we were headed because of our sufficient repentance. They will realize that in order to fully avert this, there is action needed to set right-side-up what is up-side-down in society.

#### D&C 84:98,99 (Jeremiah 31:33,34)

Here is another “eye to eye” reference, which also ties into one of my favorite verses, which forms the tenor solo in “The Message of Gladness: A Millennial Anthem” {link / download from GreaterThings.com} I composed in ~1997 for my parent’s mission farewell.

“98 Until all shall know me...even from the least unto the greatest [Jer. 31:34], and shall be filled with the knowledge of the Lord [Isa. 11:9], and shall see eye to eye, and shall lift up their voice together [Isa. 52:8] sing this new song, saying:  
99 The Lord hath brought again Zion...”

The tenor solo goes:

“They shall all know me, from the least of them unto the greatest of them. I shall forgive their iniquities, and remember the sins no more.”

## Instantaneous

### Isaiah 65:24 & Matthew 6:8

Another prophecy from Isaiah that describes the functionality of the II is Isa. 65:24:

“And it shall come to pass, that before they call, I will answer; and while they are yet speaking, I will hear.”

This addresses the instantaneous response capability, as well as the angels knowledge of what you are thinking and are about to ask, so they can convey the relevant content to your “screen” even before you complete the thought in your mind.

This notion is also found in Jesus’ statement: “Your Father [in heaven] knoweth what things ye have need of, before ye ask him” (Matt. 6:8), which is immediately followed by the Lord’s Prayer.

### Isaiah 66 Chiasm

Isa. 65:24 actually forms the opening element of a chiasm that spans Isaiah 66, paralleling the closing of Isa. 66:23,24. The focal point is in verse 8:

8 Who hath heard such a thing? Who hath seen such things? Shall the earth be made to bring forth in one day? Or shall a nation be born at once?

This is describing a global consciousness shift in a very short period of time, as in one rotation of the earth through all 24 time zones.

With modern social media, such a sudden awakening event is not inconceivable.

The verse prior (66:7) describes a woman (church) bringing forth a man child (kingdom of God) without travail or pain. (See JST-Rev. 12:3,7.) That is *not* how babies are usually born.

What most people are expecting of the birthing of the kingdom of God is that we as a civilization will have to first undergo tremendous tribulations. But here in this last chapter of the book of books, Isaiah, is a description of a scenario of the kingdom of God coming forth **sans tribulation** – because the repentance clause of prophecy has been evoked.

What I describe as the “light switch event” that leads to that sudden awakening of the planet is in 66:5 that describes an appearance of the Lord to an outcast contingent – an appearance that garners global attention – to the repentance clause of prophecy that says that if enough people repent sufficiently, then the destructions and captivity (tribulations) to which we are presently surely headed, will be averted.

I anticipate that this Isa. 66:5 event could happen soon, along with the global awakening and birthing of the kingdom of God on earth – and the **enabling of this II capability, as a key part of that 24-hour awakening event.**

So I think it is hugely significant that this very II-relevant wording is also the opening element of the chiasm that focuses on this awakening event just described.

In the opening of this introduction, I said that the II is a capability that will emerge when / as the kingdom of heaven is established on earth. And I just showed a key prophecy that prophesies that indicates that this could happen suddenly.

### JST-Mark 9:45

“Seek unto my Father, and it shall be done in that very moment what ye shall ask, if ye ask in faith, believing that ye shall receive.”

This verse is part of an exposition (JST-Mark 9:34-48) of individuals we might tend to trust more than God, advising essentially “Don’t do it” (9:44), warning that the transgressor will “be cast into hell; into the fire that never shall be quenched, where their worm dieth not, and the fire is not quenched” (9:41,48). And that wording is essentially verbatim to the last verse of Isaiah – 66:24, which matches as an antonym to the above 65:24.

## Angel Interface

### Malachi 4:5,6 – Omega Verse of OT

The very last / omega verse of the Old Testament, Malachi 4:5,6, is highly relevant to the angel-enabled II:

5 Behold, I will send you Elijah the prophet before the coming of the great and dreadful day of the Lord:

6 And he shall turn the heart of the fathers [angels] to the children [those now incarnate], and the heart of the children [us] to their fathers [being grateful] for providing this capability.

From what I understand, mainly from NDE accounts, is that our guardian angels are usually ancestors that have passed on in recent times. Their helping us on behalf of God is part of their forward progression (and finding joy therein). So the II would be a very keen way to draw humanity’s attention and appreciation to them, and for them to increase substantially their involvement in our lives.

Verse six ends with an antonym warning of what happens if we don’t evoke the repentance clause along with this II capability unfolding: “lest I come and smite the earth with a curse” (tribulations).

### 1 Samuel 16:7

The II delivers content tailored to the user, because the angels, on behalf of God, know the user, their needs, mood, and mission. That principle is articulated in this verse:

“.. look not on countenance or height of stature..., the Lord seeth not as man seeth; for man looketh on the outward appearance, but the Lord [and angels] looketh on the heart.”

## Angels Work on Behalf of God

Here are a few relevant passages along these lines from the LDS Topical Guide under “Angels” and “Angels: Ministering of”

1 Kings 19:18 angel spake... by the word of the Lord

Psalm 91:11 give his angels charge over thee

Luke 20:36 [the dead (ancestors)] are equal unto the angels

2 Nephi 32:3 Angels speak by the power of the Holy Ghost, wherefore, they speak the words of Christ

Moroni 7:29 neither have angels ceased to minister

Moroni 7:25 by the ministration of angels ...men began to exercise faith in Christ

## God Knows Our Thoughts

Here are a few passages from the LDS Topical Guide under “Thoughts”:

1 Chron. 28:9 Lord... understandeth all the imaginations of the heart

Job 42:2 that no thought can be withholden from thee

Psalm 92:5 (1 Cor. 3:20) Lord knoweth the thoughts of man

Isaiah 66:18 I know their works and their thoughts

Matthew 9:4 (Luke 5:22) Jesus knowing their thoughts said

Matthew 12:25 (Luke 6:8; 11:17) Jesus knew their thoughts  
Hebrew 4:12 discerner of the thoughts and intents of the heart  
Alma 18:32 he knows all the thoughts and intents of the heart  
D&C 6:16 God that knowest thy thoughts  
D&C 100:5 thoughts that I shall put into your hearts

## Perfect Day

### D&C 50:21-24

"21... Understand and know that he that receiveth the word by the Spirit of truth receiveth it as it is preached [speaks] by the Spirit of truth. [AF13-compatible]  
22 Wherefore, he that preaches [speaks] and he that receiveth, understand one another, and both are edified and rejoice together. [AF13]  
23 That which is of God is light; and he that receiveth light, and continueth in God, receiveth more light; and that light groweth brighter and brighter until the perfect day."

### Corinthians 13:12,13

This next passage comes from the famous chapter by Paul about charity.

"10 But when that which is perfect is come [II will have perfect fidelity, speed, relevance, etc.], then that which is in part shall be done away. [See section above: "Not All E-gadgets will be Gradually Phased Out"]  
12 For now we see through a glass, darkly [present tech. compared to II]; but then face to face [eye to eye (Isa. 52:8)]; now I know in part; but then shall I know even as I am known.  
13 And now abideth faith, hope, charity, these three; but the greatest of these is charity. [AF13 epitome attribute]

### JST-Isaiah 42:19,20

20 And they shall be made perfect notwithstanding their blindness, if they will hearken unto the messenger, the Lord's servant.

## Image

### Corinthians 15:45-49

This next passage relates to the "kingdom of heaven on earth" context of the heavenly-imaging capability being transmitted via earthly vessels.

"...that was not first which is spiritual, but that which is natural; and afterward that which is spiritual. First man is of the earth, earthy; the second man is the Lord from heaven. As is the earth, such are they also that are earthy; and as is the heavenly, such are they also that are heavenly. And we have born the image of the earthy, we shall also bear the image of the heavenly."

### 2 Corinthians 3:17,18 & 4:1-7

This set of passages at the end of chapter 3 and beginning of chapter 4 relate to the II image capability / purpose.

"... Where the Spirit of the Lord is, there is liberty" [II is strongly freedom-based and supporting]  
"... we all, with open face beholding, as in a glass [present e-gadget technology limitations] the glory of the Lord, are changed into the same image from glory to glory, even as by the Spirit of the Lord [angels]."

Excerpts from chapter 4:

Sterling D. Allan, 228033; U-Prep class: Write Your Own Business Plan; Jan. 14, 2017

Ministry...; renounce hidden things; ... by manifestation of the truth, conscience [AF13]; gospel hid to the lost; light of the glorious gospel of Christ, who is in the image of God, should shine unto them. God commanded the light to shine out of darkness, hath shined in our hearts [direct to mind], to give the light of the knowledge of the glory of God in the face of Jesus Christ. But we have this treasure in earthen vessels ["screen" interface], that the excellency [definition of sterling] of the power [no electricity, directly from heaven repository to brain/mind] may be of God, and not of us [not our power, but the best of our content]."

## Light / Ensign / Standard

### Alma 31:5

"And now, as the preaching of the word had a great tendency to lead the people to do that which was just—yea, it had had more powerful effect upon the minds of the people than the sword, or anything else, which had happened unto them—therefore Alma thought it was expedient that they should try the virtue of the word of God."

Note the usage of the term "virtue," which word appears twice in AF13. I would argue that this word associated is intended to serve as a dual prophecy about the role the II will play.

This verse doctrinally supports the notion that the "repentance clause of prophecy," which is based on the word of God, not the sword of destruction, is a much preferable path for society. And the II is a key tool by which society repents and has a tool whereby they can avert the destructions and captivity to which they were headed, and go instead directly to the kingdom of God on earth.

### Isaiah 9:2

"The people that walked in darkness have seen a great light"

### Isaiah 49:22

"Thus saith the Lord God, Behold, I will lift up mine hand [e.g. hand-held II] to the Gentiles, and set up my standard to the people..."

### Isaiah 11:11,12

"11 And it shall come to pass in that day, that the Lord shall set his hand again the second time to recover the remnant of his people.  
12 And he shall set up and ensign for the nations..."

The "first" time the Lord set his hand was Moses to the children of Israel. The "again the first" time was Jesus to the Jews, who rejected him, so the kingdom went to the Gentiles. The "second" time was Joseph Smith, who restored the kingdom to the Gentiles. The "again the second time" is the present era.

## Blind See; Deaf Hear

The blind and deaf will be able to see / hear via the II. Ditto for vision-impaired or hearing-impaired, whose view and audio will be perfect in the II. And yes, this also has metaphorical relevance to spiritual blindness and deafness, which will also be cured via the II.

### Isaiah 42:6,7

"6 I the Lord have called thee in righteousness, and will hold thine hand, and will keep thee, and give thee for a covenant of the people, for a light of the Gentiles;  
7 To open the blind eyes, to bring out the prisoners from the prison..."

Isalah 29:18, 20, 24

"...in that day shall the deaf hear the words of the book, and the eyes of the blind shall see out of obscurity, and out of darkness; ..meek increase joy; poor shall rejoice [full access, not withheld for lack of budget];  
"They that erred shall come to understanding, they that murmured shall learn doctrine."

IST-Isalah 42:19,20

The following is in the LDS Bible Appendix from the Joseph Smith Translation.

19 For I will send my servant unto you who are blind; yea a messenger to open the eyes of the blind, and unstop the ears of the deaf.

20 And they shall be made perfect notwithstanding their blindness; if they will hearken unto the messenger, the Lord's servant.

Isaiah 43:8

"8 Bring forth the blind people <p. 913> that have eyes, and the deaf that have ears.  
9 . . . let them hear, and say, It is truth."

"Truth" is a meaning of "virtue," which is an attribute listed in AF13, which begins, "We believe in being honest, true..."

Regarding p. 913 of the LDS Bible: my Utah County Jail ID number was 333913.

Isaiah 35:5

"Then the eyes of the blind shall be opened and the ears of the deaf shall be unstopped."

John 9:25

"Whereas I was blind, now I see."

Matthew 11:18

"He that hath ears to hear, let him hear."

## Let Your Light Shine

Matthew 5:16

The II will facilitate people's ability to do this injunction from Jesus:

"Let your light so shine before men, that they may see your good works, and glorify your Father which is in heaven."

Isalah 62:1,2

"I will not rest, until the righteousness thereof [Zion & Jerusalem] go forth as brightness, and the salvation thereof as a lamp that burneth. And the Gentiles shall see..."

Sterling D. Allan, 228033; U-Prep class: Write Your Own Business Plan; Jan. 14, 2017

## Infinite

### Psalms 147:4,5

(Mentioned above)

4 He telleth the number of the stars; he calleth them all by their names.  
5 Great is our Lord, and of great power: his understanding is infinite.

### D&C 19:10 (Moses 1:3; 7:35)

“Endless is God’s name”

### Moses 1:4

...my works are without end, and also my words, for they never cease.”

### “Reality” Verses

For me, the term “virtual reality” doesn’t have a very wholesome connotation. I associate it with gaming, frivolity, and not with “reality” as in its true definition meaning “truth, actuality, veracity, factuality, fact.”

Considering several verses of scripture that use the terms “real” or “really” helps bring a mindsets more in line with the true meaning of the word – as I see it manifesting with the II functionality.

### 2 Nephi 31:13

“follow the Son, with full purpose of heart, acting no hypocrisy and no deception before God; but with real intent.”

### Jacob 4:13

“13 ... he that prophesieth, let him prophesy to the understanding of men; for the Spirit speaketh the truth and lieth not. Wherefore it speaketh of things as they really are, and of things as they really will be; wherefore, these things are manifest unto us plainly for the salvation of our souls.

### Alma 32:33-35

33 plant seed

34 takes root, swalleth, enlightened...; knowledge perfect in that thing..

35 ...is not this real? Yea, it is light, good, discernable, fruit.

Note, both Jacob 4:13 and Alma 32:33-35 make reference to the prophet Zenos, and both are relevant / given in the context of the “vineyard” notion. In the LDS Topical Guide, the terms “real” and “reap” (relevant to “vineyard”) are juxtaposed as well.

### Moroni 10:4,5

“ask God, the Eternal Father, in the name of Christ, if these things are not true; and if ye shall ask with a sincere heart, with real intent, having faith in Christ, he will manifest the truth of it unto you, by the power of the Holy Ghost. And by the power of the Holy Ghost ye may know the truth of all things.

## Coded References

There are quite a few other scripture-based/related affirmations of this II capability, prophetic destiny, etc.

### "Interface"

For example, the term "interface" (first of two words in name of II) inserts alphabetically on page 228 of the LDS Bible, Topical Guide © 2013. My prisoner ID, 228033, begins with those digits. Likewise, as a second such witness, in Roget's College Thesaurus (2001; ISBN 978-0-451-20716-6), the term "interface" appears on page 440, which definition in the Old Testament lexicon (James Strong's numbering) is the Hebrew word, *Allon* – the closest transliteration in the lexicon to my last name, Allan. Also, I've lived on 440 West in Provo twice.

### "Virtual Reality"

Also in Roget's, here is the entry for "reality," as in "virtual reality:"

- **reality**, *n.* TRUTH, actuality, veracity, factuality, fact

The entry in Roget's for my first name is:

- **sterling**, *adj.*, genuine, unalloyed, pure; noble, excellent, exemplary; silver; See TRUTH, VIRTUE

The term "virtue" comes right after "virtual reality" in Merriam-Webster's dictionary; and in AP 3 (the last/omega scripture verse of the LDS Triple Combination and Quad, and touchstone reference for content to be allowed through the II), "virtuous" is the only attribute named twice.

### "Eye to Eye" on P. 440

On page 440 (see significance of that number, just above) of the Book of Mormon (post © 1981), the second full verse on the page, and the first verse cited from Isaiah 52 in III Nephi, is verse 8, including the key phrase: "They shall see eye to eye [II] when the Lord shall bring again Zion."

### "Infinite"

There are three words translated "infinite" in the KJV Bible. {Composed in 11/17/16 letter to L.S. One highlight is... }

Definition 4557 ("infinite", as found only in Ps. 147:5) is derived from def. 5608, which is full of II-relevant terms:

5608 to score with a mark as a tally or record [repository from heaven of earth-created documents], i.e. by implication, to inscribe [composing], and also to enumerate [II will allow easy answers and embellishment on questions asked]; intens. to recount [easily pull up what document / image / video you are thinking of, go straight to the page / clip / excerpt of relevance]; i.e. celebrate [people will love its features]; commune [will support the full spectrum of communication, including instantaneous translations, telepathic transmissions, human-animal interactions, human-E.T. interactions; group meetings / conferencing, etc.], (ac-)count [II will enable easy computations, with no processing delays – instant answers], declare [via II will be easy. Angels will gauge relevance / importance to you, and let through things you need to see. This will make administration of the kingdom of heaven on earth easy and delightful.], number [II will easily collect and display meaningful stats, e.g. "how many people are listening to this broadcast right now?"]; + penknife [in the context of II, this calls to mind cutting & copying & pasting, deleting, editing, which will be super easy when composing via mind commands. You visualize it, and it instantly happens; and "undoing" what you just did will likewise be easy with just a mind command. E-gadgets make this pretty easy, too, but the II will be even easier.]; rockon [M-W "3: think, suppose, guess." In addition to the easy computation ability, the II will take the guesswork out of things, because it can immediately pull up the exact information you are looking for], scribe [M-W "1: a scholar of Jewish law in New Testament

times; 2: a person whose business is the copying of writing; 3: JOURNALIST” – ditto previous: copy & paste is super easy, with full fidelity. II will make a journalist’s job very easy – taking notes / memos, recording things written, said, done; in real time, in person, or pulling from historic archives stored in heaven.], show forth [a primary capability of the II], speak, talk, tell (out) [ditto]; writer [the II will make composing text super easy. Think it, and it shows up on the screen; move it around to a sequence you like, put in exhaustive footnotes, etc.]

(James Strong’s Exhaustive Concordance of the Bible, p. 69)

## “Technology”

The alphabetic insertion point of “technology” in the 2013 © Bible Dictionary (LDS Bible Appendix) is on page 734.

Likewise, in the Miriam-Webster’s dictionary I’ve been using (ISBN-10 0-87779-930-X), the “technology” definition is on page 734.

L.S.’s P.O. Box # is 743 – a transposition of those digits.

### Many More

This is a small sampling of what I’ve found along these lines. See my prison blog for more.

## Part 5: II Rapid Rollout (II<sup>nd</sup> Coming)

### None of the Typical Time-Dependent Tasks

I envision an unprecedented, rapid rollout for the II.

Just think about it.

It doesn't involve patenting, research and development, investment, manufacturing, marketing, sales – things that take time (years) and expertise to accomplish in typical rollouts.

From our vantage point, it's not a technology, it's more like an idea whose time has come, which could explode globally overnight, *once the capability is unleashed*.

Briefly, it's a capability that God turns on, and once activated, everyone can use it.

All the "training" will have taken place with the angelic forces on the other side of the veil. It's their challenge, not ours as mortals.

Therefore, the main question from a rollout point of view is what is it going to take for mankind to prevail on God to activate this capability?

### The Light-Switch Event

As I mentioned earlier, the rollout of the II will be contingent on (actually concurrent with) the emergence of the kingdom of God on earth.

In a prophetic time-line point of reference, most people expect that the Daniel 2 kingdom of God, that includes a righteous government element, will not come until after a period of intense tribulation – "hitting rock bottom" as a society.

### Repentance Clause of Prophecy

For the past nearly two years, I've been on a quest to bring about what I describe as the "Repentance Clause of Prophecy," which says that if a sufficient core of society repents, then the destructions and captivity to which we are surely headed otherwise, can be averted because mercy kicks in on a macrocosm level.

Prophecies about the Repentance Clause include 3 Ne. 16:13,14; Isa. 66:5,8; 2 Ne. 28:17,32; 1 Ne. 22:28; 3 Ne. 30:2; Eth. 2:11; Jer. 18:8; 2 Chron. 7:14; D&C 58:42; Prov. 28:13; Jonah 3:10; Ezk. 18:30-32; Joel 2:12-14; Matt. 12:41 (Luke 11:32); Luke 13:3,5; 2 Pet. 3:9; 1 Ne. 10:18; Mosiah 26:29,30; Alma 9:12; 3 Ne. 9:2,22; 23:5; 27:16.

Of those, I see Isaiah 66 as the most definitive in showing that this is indeed an optional / preferred path that God is setting before us as a viable option choice. The II capability emerges as we choose the pre-repentance path, in contrast to repentance as a result of tribulations bringing us to our senses.

Isa. 66:8, as mentioned above, contains the focal point of the Isa. 66 chiasm:

- XI. "Shall<sup>b</sup> the<sup>a</sup> earth<sup>d</sup> be<sup>c</sup> made to bring forth<sup>f</sup> in<sup>e</sup> one day?  
XI. or shall<sup>b</sup> a<sup>a</sup> nation<sup>d</sup> be<sup>c</sup> born<sup>f</sup> at<sup>e</sup> once?"

As is typical of the writings of Isaiah, you can see that the second statement is a rephrasing of the first, in the same sequence, in this case with seven distinct matching elements. And because of this linguistic line-up, you can see that the wording "at once" is an elaboration of "in one day." Therefore, in this case, "day" is not a nebulous span of time

that could be years, decades, or even centuries; but most likely is one 24-hour time frame: one rotation of the earth through all 24 time zones.

The parallel phrases “be born” and “be made to bring forth,” call to mind several imageries, all of which are relevant:

- Being born again – the baptism of fire and of the Spirit, the mighty change of heart that comes in answer to a broken heart and contrite spirit, spoken of in Isa. 66:2.
- The emergence of the Daniel 2 kingdom of God.

And the matching phrases, “earth” and “nation” together depict a global government of God based on a people who have been born again.

No, I don't expect that everyone on earth is going to undergo such a change, but I do see this as depicting a sufficient core of people turning to God and goodness, thus satisfying the conditions of macrocosm repentance spoken of in the above references that enable an averting of destruction.

### Averting Tribulation

Isa. 66:7 describes the averting of tribulation:

<sup>1</sup>Before, <sup>2</sup>she <sup>3</sup>travailed, <sup>4</sup>she <sup>5</sup>brought forth;  
<sup>1</sup>before, <sup>2</sup>her <sup>3</sup>pain came, <sup>4</sup>she <sup>5</sup>was delivered of a man child.

JST-Rev. 12:3, 7 defines the “woman” as “the church of God,” and the “man child” as “the kingdom of our God and his Christ.”

In normal conditions, in the birthing process, a woman goes through intense labor pains in bringing forth a child. But this verse is describing a child being born *without travail*.

I happen to have a sister, Karie Clingo, who had her last child, Lisa, without labor pains. If I remember correctly, she used meditation techniques involving soothing music and a warm birthing tub. She imagined herself on a beach and the contractions as being warm waves going over her. When she went through transition and began pushing, she pictured herself in a dark cave. She said the birth was pain free.

I mention this to point out that while such techniques were not realized in Isaiah's day, they are now manifest among a few enlightened types today. There are websites describing how to do this. IT IS POSSIBLE.

But even today, among the mainstream, the sentiment expressed by Isaiah following this is still relevant:

Who <sup>1</sup>hath <sup>2</sup>heard <sup>3</sup>such a thing?  
Who <sup>1</sup>hath <sup>2</sup>seen <sup>3</sup>such things?

This is not “normal,” or expected. Society is not anticipating the kingdom of God emerging without first going through tribulation. They are not expecting that society will repent.

Certainly the present trajectory of society is headed “over the cliff.” No arguments there.

### Appearance of the Lord to Outcasts

But what I see Isaiah 66:5 depicting is a part of what I describe as the “light switch event” that turns on human consciousness – suddenly – metaphorically as sudden as a room changing from dark to light by merely flipping a light switch on the wall.

“Hear the word of the Lord, ye that tremble at his word; Your brethren that hated you, that cast you out for my name's sake, said, Let the Lord be glorified: but *he shall appear* to your joy, and they shall be ashamed.”

This verse is depicting an appearance of the Lord to an outcast element from a mainstream religious body. I see that body as being the LDS Church; and I personally can certainly relate to being cast out, having been excommunicated in 1993 for “apostasy,” then in October 2014 being issued a *persona non grata* edict saying I cannot show up on any LDS properties worldwide or I face arrest and prosecution. This was based on a fabricated situation that did not happen. My attempts to clear my name were unsuccessful. It turns out that at least two other people received nearly identical letters, indicating that LDS Church Security has a boilerplate template they use for people they deem sufficiently unsavory. (See <http://tinyurl.com/SterlingBanned>) So I can viscerally relate to the wording: “Your brethren that hated you, that cast you out for my name’s sake.”

As for the wording, “ye that tremble at his word,” my GreaterThings.com website amply illustrates that I’m one who loves the word of the Lord, as depicted in the opening of Isa. 66:5. The very domain name, GreaterThings, depicts an archetypal adherence, per the promise that those who receive / accept that which they have been given shall be given greater things. (e.g. 3 Ne. 26:9,10)

I don’t think the Isa. 66:5 appearance will be an average visitation of the Lord such as in a dream, vision, or near death experience, as has been experienced by many millions. I say millions because of the estimated number of near death experiences is 14 million, based on the statistic of 2 out of 1000 having had such an experience. And it is a fair guess that a good portion of those experiences included seeing the Lord.

I envision the Isa. 66:5 appearance to be similar to what is depicted in 3 Nephi when Jesus appeared several times to the Nephites, descending from the sky, then ascending back to heaven. I see it being along the lines as is depicted in Matthew 24:27, modified significantly in the Joseph Smith translation of the Bible; and the only New Testament chapter included in the Pearl of Great Price (placing this text under the spotlight as being very significant).

For as the light of the morning cometh out of the east, and shineth even unto the west, and covereth the whole earth; so shall the coming of the Son of Man be. (JS-M 1:26)

You might say, “But isn’t what you are depicting basically the Second Coming of the Lord, Jesus Christ?” And the short answer would be “Yes.” But the difference is that this is an appearance per Isa. 66:5 which enables civilization to embark on a path that averts tribulation / calamity.

The prophecy in Matthew 24 very clearly states that Jesus’ coming is after tribulation. That’s how it was in Book of Mormon times as well. As mentioned in the opening, the voice that was heard by all the inhabitants was after the cataclysmic destructions that accompanied Jesus’ crucifixion. Then, some time later, he appeared to a group of the more righteous who had survived. That is the non-repentance clause scenario.

But if we repent, then we don’t go down the path of destruction and tribulation.

I see the Isa. 66:5 appearance of the Lord being part of waking up humanity to the repentance clause of prophecy, and a sufficient core repenting, thereby turning away the tribulations to which we were headed.

### Yin / Yang Partner Caveat

The catch is that for this to happen, I need a yin / yang partner to join me so this isn’t another male-dominant turning point event of history, at a time when we need to bring women back into their rightful role next to man, not beneath him or behind him.

This is according to the classic bride / bridegroom imagery.

So far, the call has gone unanswered, which is keeping us on track for the tribulation path that we’re headed toward. This is depicted in Isa. 66:4:

“I...will bring their fears upon them; because when I called, none did answer; when I spake, they did not hear...”

When I became aware that I needed this partner, I asked if I could have a name, and within an hour, I was given the name, Lindsey Stirling, the famous dancing violinist. Immediately, and subsequently, I have found many scriptural evidences that point to her being the one foreordained to step forward as a microcosm sampler of the LDS macrocosm people of the Lord in these end times, who are in a state of apostasy from what they were called to do. (It doesn't have to be Lindsey; but my attempts on the outside to interest anyone else were likewise met with disdain, indifference, disgust, or ignored. Lindsey was brought back to my attention on Easter '16 when I had a dream about her; and she has remained the primary target of my efforts since.)

### Lindsey Got Married

I first finished composing and printing this "Part 5: Rapid Roll-out" portion of this II plan on December 10, 2016 my ex-wife, Cheri's birthday. An hour later, I received my first visit from my parents since I arrived here at the Gunnison Prison (CUCF) on July 14. (They have tried several times prior to visit, but met with obstacles each time, such as lock-down, not enough time before end of day, etc., and were turned back.)

They informed me that Lindsey had recently gotten married (~2 months ago?).

This totally threw me for a loop because this whole paradigm is centered on her as my partner. Hundreds of witnesses from the scripture codes and even some straight-up prophecies that point to her. How could that be?

That evening, though, I remembered this prophecy in Isa. 54:4-6, which put things back on track:

"4 Fear not; for thou shalt not be ashamed; neither be thou confounded; for thou shalt not be put to shame; for thou shalt forget the shame of thy youth, and shalt not remember the reproach of thy widowhood any more.  
5 For thy Maker is thine husband; the Lord of hosts is his name; and thy Redeemer, the Holy One of Israel; The God of the whole earth shall he be called.  
6 For the Lord hath called thee as a woman forsaken and grieved in spirit, and a wife of youth: when thou was refused, saith they God."

This describes dissolution of her marriage; and I would think that in order for this Isaiah 66:5 scenario to play out in time, that will be happening any day, if it hasn't happened already. (I don't have access to much news in here.)

Furthermore, Isa. 54:4-6 is the focal point of a chiasm that spans from chapters 52-57, which I uncovered in May. And 54:6 is matched with 66:19 "who draw the bow" (a coded reference to Lindsey's profession) in the Isa. 54-66 Chiasm, specifying that she is the "wife" being spoken of.

### Significance of Isaiah 54

Isaiah 54 is not just another of the 66 chapters of Isaiah -- the most important book of scripture. [Isaiah is (1) cited more than any other book of scripture; (2) we are specifically commanded to study Isaiah in 3 Ne. 23:1.]

Isaiah 54 is highlighted in at least two significant ways in the Book of Mormon. And given the weight of what I brought up in the section above, you might see why this is the case.

Isaiah 54 is the only full chapter of Isaiah cited in sequence in Third Nephi (Ch. 22). Isaiah 52 is also cited, though in scrambled sequence, in 3 Ne. 20:32, 34-45; 21:8-10, 29.

The very last chapter of the Book of Mormon, Moroni 10, quotes from Isa. 54 and 52 in verse 31. And the strings in that verse come from the opening of the Isaiah 52-57 Chiasm as well as the focal point (54:4-6):

31 And awake [52:1], and arise from the dust [52:2], O Jerusalem [52:1,2]; yea, and put on thy beautiful garments [52:1], O daughter of Zion [52:2]; and strengthen thy stakes [54:2] and enlarge thy borders forever [(~54:2,3)], that thou mayest no more be confounded [54:4]...

“Put on thy beautiful garments” has strong code relevance to Lindsey as well, given that when she does interviews about her career, she talks about how she took the things she has always loved doing and put them together in her career: playing the violin, dancing, dress-up, singing.

Regarding the significance of Isaiah 52 above, remember the important relationship I have with Isaiah 52, as discussed earlier. (1) I put the first half of the chapter to music to memorize it ~20 years ago. (2) It is primarily on page 925 of the LDS Bible, which number ties to my full name: Sterling David Allan. (3) I’ve uncovered 6 different chaisms and parallels involving Isa. 52.

Now, resuming the paradigm as I wrote it previous to knowing about her having gotten married.

## Disgusting

I’m not stupid. I totally get why Lindsey would not jump at this opportunity. My mission is different than Jesus’ mission, which he accomplished well. He was the sinless sacrifice for sin. In my mortality, I’ve made a good number of sins and mistakes, some of which are viewed by certain types of people as being the worst possible offence, even worse than murder. And I admit that the infractions for which I am incarcerated are indeed incarceration worthy.

What society doesn’t get, though, is repentance and forgiveness, which are central to the Christian/ LDS faith.

God extends to humanity the promise that if they repent, then Jesus covers the punishment for the offence; and our injunction is to “go and sin no more.” This is facilitated by the mighty change of heart that removes the inclination to sin.

I believe that when I have the Isa. 66:5 experience, as part of the visit with Jesus (if not before then), my addiction will be 100% healed so that what used to be a weakness will become a strength – as is promised to all of humanity.

Coming out of this transformational experience will be a new level of forgiveness and recovery hitherto unknown. No longer will addicts have to white knuckle it through life, “working the program; one day at a time.” Instead, when they repent properly, they will be healed, and will no longer be an addict. No more will the 12-step program be an ongoing cycle of managing your addiction. It will be a complete fix, if done right. This is actually depicted quite clearly in the LDS 12-Step program manual titled “Addiction Recovery Program.”

I would guess that more than 70% of adults nowadays are addicted to something. More than 50% of Christian men, for example, are addicted to porn.

Both my sin and my healing are prophesied in Isa. 57:15-19 (starting in 57:17), which is also applicable to humanity as a whole, who all likewise sin and are in need of healing.

15 For thus saith the high and lofty One that inhabiteth eternity, whose name is Holy: I dwell in the high and holy place; with him also that is of a contrite and humble spirit, to revive the spirit of the humble, and to revive the heart of the contrite ones.

16 For I will not contend for ever, neither will I be always wroth: for the spirit should fail before me, and the souls which I have made.

17 For the iniquity of his [my] covetousness [lust addiction] was I wroth, and smote him. I hid me, and was wroth, and he went on forwardly in the way of his heart.

18 I have seen his ways, and will heal him [as a result of repentance]. I will lead him also, and restore comforts unto him and to his mourners.

19 ...I will heal him.

## The Challenge

So what is expected of Lindsey would not be easy for anyone and is made more difficult for her because of her celebrity status. Here are some of the key things she has to grapple with:

- The nature of my addiction. (Needs to remember [clear LDS teaching] that repentance can heal every sin [except against Holy Ghost] and turn weaknesses into strengths.)
- My being excommunicated from the LDS Church for “apostasy,” and my being *persona non grata*, unable to even show up on any LDS property. (Needs to realize that the LDS Church is actually the one in apostasy, in need of being set in order, to step into their role as emissaries for the kingdom of God on earth, which includes especially the need to stand up for freedom and not let secret combinations get the upper hand as they have done.)
- The Isa. 66:5 appearance as I view it seems out of touch with reality. (Needs to realize that this scenario is extensively prophesied – including hers and my being foreordained to do it – and is completely in keeping with the core principle of repentance and forgiveness.)
- The grandeur of the calling. (Needs to realize that everyone is foreordained to some kind of mission that will try them to the core, bring out the best in them, and best help humanity per their talents, interests, and will bring great joy in so doing.)

As she probably views it, she bears tremendous risk:

- Hanging out with “fringe” elements is not good for anyone’s mainstream social standing.
- Being associated with someone with my reputation could severely damage her celebrity status.
- Showing any affinity with my doctrinal views puts her good LDS standing in severe jeopardy, which could result in her losing her temple recommend, and her chances of making it to the highest degree of the Celestial kingdom, per LDS teachings.

### Rejection of This Mission

So you can see that it will be a huge step for Lindsey to take to step forward to do this Isa. 66:5 experience with me. This prophecy is not cast in stone. It’s worded as a question – a higher path option offered. “Shall a nation be born in a day?”

She could renege on her calling. Isa. 66:4 could stay in effect, and society goes off the cliff where they are headed. And society doesn’t get the II. And society wouldn’t even realize they had an option, but gets what they were expecting.

If you think it odd or unlikely that humanity’s fate hinges on the decision of one person, bear the following in mind:

- Polling is based on the same principle. You take sampling of society, and it is representative of society on average; except in this case, rather than a large sampling size, one person epitomizes the societal average.
- Lindsey is like a barometer. Her decision is an indicator of where society is.
- Supporting scripture: JS-Matt. 1:46 “What I say unto one, I say unto all men” (is added in the JST to Matt. 24:42).
- Lindsey is not the only indicator of readiness to accept this message. Several others have likewise responded unfavorably.
  - Prior to my incarceration, the acceptance of my words was mostly rejected, with a few exceptions
    - In around Nov. 2015, I wrote an article at PESN documenting that there was a small set of people who support my Isa. 66:5 quest; and that group of people was comprised of some key leaders in the free energy movement – inventors / group leaders among the Top 5 Exotic Free Energy Technologies and runners up. (<http://Top5Energy.com>) More than half of them hold Ph.D.s.
    - There was one guy, Joriz Montez from the Philippines who vocally supported my entire paradigm, including my statements regarding the title for the role I see Lindsey and myself playing. But I’ve not heard from him (nor from any of the above group) since my incarceration.
  - My parents, do not support this paradigm, but have been extremely reluctant to help in even the smallest ways when it comes to this paradigm, not doing things as simple as forwarding a letter and not providing addresses of alternative people to help.
  - My attorney, Sid Unrau, while in person expressing a willingness to help, has not forwarded anything nor responded to me in writing.

- My awake cousin, Val (Allan), and her husband, my long-time friend Mike Rigby, a pillar in the “fringe” remnant types of people, who I had twice on my radio show, declined to help, waiting a month to even tell me that.
- My good friend from American Study Group days (1992, 1993), Shackle Rose, who also lined me up with her sister to date in ~1998, declined to forward anything; but at least she gave me Lindsey’s mailing address so I could finally at least mail things direct; and she copied and returned the letters to me so I could mail them and retain a copy.
- My awake sister, Karie, has likewise declined to forward some earlier letters I sent to her; and she has ignored / overlooked my request to collect the other letters I had sent via my parents, Sid Unrau, Mike Rigby, and Shackle and forward those to Lindsey.
- A query to Sean McGuinness, my friend and editor at PESN, to help out, was declined.
- My query to two guys who had signed a petition to help with the Isaiah 66:5 quest likewise declined to help.
- These all are the most likely people to help. They all declined to help or have anything to do with this Isa. 66:5 quest as I envisioned it.

~~This is consistent with rejection prophecies such as:~~

~~“When I called, none did answer, when I spake, they did not hear.” (Isa. 66:4, 65:12, 63:3-5)~~

~~“Wherefore, when I came, was there no man? When I called, was there none to answer?” (Isa. 50:2; 2 Ne. 7:2)~~

~~“In that day when I came unto mine own [Jesus to the Jews], no man among you received me, and you were driven out. When I called again [“the second time” (Isa. 11:11; 2 Ne. 6:14)] there was none of you to answer.” (D&C 133:66,67)~~

~~“Then I said, I have labored in vain, I have spent my strength for nought, and in vain...” (Isa. 49:4)~~

One of the advantages of having someone to forward for me on the outside is that they can make a copy for my archive to put in my Jail / Prison Blog.

However, since the II capability scenario has come to my mind, I no longer worry about retaining copies because I know that everything I’m writing can be made available. Not only can the angels display it for those who are interested via the II, but they can also transcribe the text so it is easier to read. (My small handwriting – to conserve paper and get more content in the 5-paper limit for mailing via the pre-stamped envelope – is not that easy to read, even for me.)

### ~~Victory~~

~~Therefore, if / when Lindsey finally steps forward (I think she will do it, soon), it will be at a great perceived risk and a great sacrifice, and will play an intercessory role for mankind. Her seeing the good in me and my cause and this mission will be in contrast to all these other noble souls who have not seen the good, but have distanced themselves. Her answering my invitation, as a microcosm stand-in for the LDS macrocosm bride, brings about the Isa. 66:5 experience, which brings about the nation being born in a day, the earth bringing forth in one day (66:8). And with that emergence of the kingdom of God on earth (Dan. 2) will also come the roll-out of the II and a new, very exciting world, able to avert calamity because (1) people awaken and route the conspirators who were poised to enslave humanity, (2) people are empowered to step into their God-callings, doing what they love, which makes them 6x more effective than before. This will birth a super-charged humanity that will not crash but will thrive, bringing a day of abundance to replace the present scarcity mentality.~~

Considering this “risk” factor, a good admonition of the Lord to Lindsey, is found in Isa. 49:23, which verse begins at the end of page 921 of the LDS Bible (9/21 is her birthday):

“They shall not be ashamed that wait for me.”

That is reiterated and expanded in 2 Nephi 6:13,14:

Sterling D. Allan, 228033; U-Prep class: Write Your Own Business Plan; Jan. 14, 2017

“The people of the Lord shall not be ashamed. For the people of the Lord are they who wait for him; for they still wait for the coming of the Messiah. And behold, according to the words of the prophet, the Messiah will set himself again the second time to recover them... And none will he destroy that believe in him.” [The repentance clause.]

Verse 14 is on p. 69 – a number that is code for the yin/yang symbol.

### Role of Social Media in Propagating Awareness of the Appearance Event

Something that has puzzled me over the years regarding prophecies about the Second Coming of Jesus is that they seem to depict everyone on the planet seeing the event at the same time; yet the logistics from a traditional point of view are “impossible,” because (1) there are 7 billion people on the planet, (2) they are spread across two hemispheres and 24 time zones, (3) even with a repeated, purely localized occurrence to a subset of people, it would be difficult to gain a good view because even a mile distance makes a person hardly viewable.

Modern broadcast methods resolve a lot of these problems, but the II tackles them ideally. Because it is as simple as drawing a rectangle on a piece of paper, or looking at a brick on a wall and imagining the wording “Infinite Interface” above it to activate, there are no logistical limitations to global penetration overnight. And with everyone having one of these, now everyone has the ability to view the appearance event, as close or far away as they want, from whatever angle they want – in full fidelity, perfect audio and video.

Social media can facilitate awareness of the II and its propagation, but this awareness could propagate without social media. I should mention, though, again, that all the Technology 1.0 capabilities have helped prepare the planet to be ready to accept, understand, and appreciate the II and its capabilities.

### Three Fatal Event Deliverance Situations

I have gone on for two years now seeking to bring about this repentance clause, without success in rallying substantial support. When nothing happened in the last probable window, spanning Dec. 29-31, 2016, rather than just give up, I brainstormed two ways to rouse the attention of the Lord’s people, for the purpose of getting them “ready,” so the repentance clause evoking scenario can unfold.

One is to have a series of three mini destruction avoidance situations arise. The other is to have two key verses brought to their attention in a special way. I received many confirmations from the Spirit and scriptures to confirm to me that these things are in accordance with the will of God and will unfold as I have requested.

I see these two situations unfolding just prior (a few days) to the series of events pertaining to the evoking of the repentance clause, described below.

Here is a brief description of the series of three mini destruction avoidance situations:

- Situation One
  - A “killer storm” is headed to Utah. The weathermen give stern warnings about it. When it arrives, it spares the valleys (depositing just a moderate amount), but brings moisture to the mountains where it is primarily needed for the aquifer.
  - The commentary will be that we were spared.
  - As people who know me or of me contemplate on being spared, my last name, “Allan” will be brought to the person’s attention by the angels, showing up in front of them (e.g. scrolling along the bottom of the TV screen; or on a street sign, or marquee, or text in vicinity. The impression they receive will be: (1) this was a miracle from God; (2) I’m associated with God and deliverance.
- Situation Two
  - The Wasatch Fault (which has been dormant; and scientists say that when it goes off it will be a “big one,” e.g. 7-9 on the Richter scale) goes off; but at a mild 4 on the Richter scale, relieving some of the built-up pressure without causing massive destruction. A 4 earthquake can be felt, and you might see things jostling about, but doesn’t do structural damage. (Apparently, the dreams /

Sterling D. Allan, 228033; U-Prep class: Write Your Own Business Plan; Jan. 14, 2017

visions regarding the Wasatch Fault describes the first of three faults being mild; so bear in mind that some might view this as a signal of the larger faults being just ahead. God can avert those if we no longer warrant them.)

- The commentary could include that we avoided the “big one,” for now.
- As people who know me or of me contemplate on being spared, my first name, “Sterling” will be brought to the person’s attention. Again, the impression they receive will be: (1) this was a miracle from God; (2) I’m associated with God and deliverance.
- **Situation Three**
  - A large meteor, similar to the one that landed in Russia 3-4 years ago, lighting up the nighttime sky and creating a loud “boom” that rattled buildings and cracked or even broke some windows; comes streaking across the Utah sky from the south, headed straight for downtown Salt Lake City (the angels can guide such masses already out there, to bring them into this alignment). As it crosses the Utah Valley and Salt Lake Valley skies, it will have a similar display to what was seen in Russia, possibly rattling buildings and windows, just so people know it is real, and powerful. But as it approaches its destination, it will miraculously turn to dust.
  - The commentary will be that there is no scientific basis for what happened. Only one explanation is possible: divine intervention – a Mormon miracle.
  - As people who know me or of me contemplate on being spared my middle name, “David” will be brought to the person’s attention. The impression they receive will be: (1) this was a miracle from God; (2) I’m associated with God and deliverance.

Having seen this three times, giving my full name, people who are paying attention will realize something huge has happened and will perk up their attention and begin asking questions, which leads to this next scenario: the scripture illumination

### Lindsey Parallel

The brainstorm regarding those three situations to unfold to the Saints along the Wasatch Front – the “heart” of Mormonism today – actually began with envisioning a similar scenario for Lindsey, but on an individual scale.

- **Situation One:** She’s driving down the road (could be with others, or with another driver), and the car is physically moved out of the way of what would have likely been a fatal collision; and as the car comes to a stop and she looks up, she sees “Allan” on a road sign or marquee, etc.
- **Situation Two:** She’s walking along, and is physically blocked by some unseen force that protects her from stepping into a perilous / deadly situation, e.g. a deep hole in the sidewalk; and as she looks up, she sees “Sterling” written somewhere in front of her.
- **Situation Three:** She’s travelling along, via any method: walking, driving, scooter, bus; and again she feels physically moved out of the way as something falls from the sky that could have killed her without that intervention. Then, in her view will be the name: “David” completing my full name.

Each time, she receives the impression that: (1) God is in this; (2) I’m a part of God. And all these scenarios have to do with averting destruction / tribulation. As a result, she realizes she needs to pay attention to what I’ve been sending her and stop disregarding it.

I received a good affirmation that this is in the will of God and will be done. But then, I realized that because she’s a “barometer” or “thermometer” indication of the body of the LDS mainstream, I needed to come up with an analogous situation to unfold for the macrocosm to impact them in a similar way. That’s when I came up with the earlier three situations.

### Power Verses

Now, regarding having two key verses brought to the Saints’ attention in a special way...

Think back to what led to Joseph Smith’s First Vision. He was reading the Bible and came across James 1:5, “If any of you lack wisdom, let him ask of God...” Note carefully the wording of how he was impacted by that verse:

“Never did any passage of scripture  
come with more power  
to the heart of man  
than this did as this time to mine.  
It seemed to enter with great force  
into every feeling of my heart.  
I reflected on it again and again...”  
(JS-H 1:12)

What would it be like to have that magnitude of experience reading a passage of scripture?

I can imagine because I’ve had many astonishing experiences in the scriptures: times where I’m weeping I’m so filled with light, love, understanding, reverence, awe, compassion, mercy, justice, wisdom, peace.” I just listed a few wonderful attributes or “feeling of the heart.” Joseph said that “every feeling” of his heart was impacted with “great force.”

And out of that experience came Joseph’s resolve to do what resulted in the First Vision:

“At length I came to the conclusion that I must either remain in darkness and confusion, or else I must do as James directs, that is, ask of God...” (JS-H 1:19)

What if the faithful Saints (who love the gospel and the scriptures and are valiant in their testimony of Jesus; many of whom know me or of me) had a similar experience with a key turning-point passage of scripture? What scripture would be best to thus feature?

For the most part, this will be unfolding one individual at a time, between them and God, in their personal scripture study time. It could be while they’re in public, such as in a Sunday school class or other church meeting, but they will be drawn to these verses individually, and will have the powerful experience individually. I could conceive of a scenario, though, where someone thus impacted was then teaching a class and laying the groundwork for the entire class to have the same experience, at the same time; but even then, for each person, it will be between them and God.

As I mulled over these questions on New Years Day, the passage set that came clearly to mind for the faithful Saints to have a JS-H 1:12-level experience with were D&C 133:67 and its cross reference 2 Nephi 28:32. I elaborated on these at length, and how they will impact the Saints, in a letter to Lindsey on Jan. 5, which you can read via the II. (Because of the present blindness of the people, I don’t see this present document coming into any substantial circulation prior to the rollout of all these things.)

Briefly, what they will realize is that:

- The LDS people of the Lord in our day are on a parallel with the Jewish people of the Lord at the time of Jesus – not a compliment.
- The LDS people of the Lord are denying God [an “again the second time” advent of the Messiah (the Father, this time) in their midst. (See also 2 Ne. 6:13, 14; 7:2; Isa. 11:10,11; etc.)]
- They can repent, and the arms of mercy are ready to receive them and enable them to avert the destructions they face

As Joseph’s experience with James 1:5 led to the First Vision; so also, the faithful Saints’ similar-level experience with D&C 133:67 and 2 Ne. 28:32 will prime them to be able to participate in the Second Coming (sans tribulation because of our repentance as a people) event, in person, as it unfolds, as described herein.

### Lindsey Parallel Power Verses

Like how the destruction situation avoidance miracles envisioned (requested) were preceded by my brainstorming such a miracle set with Lindsey, so also did the power verses scenario also come to mind for me first in relation to Lindsey.

On Dec. 31, 2016, the two passages I asked to have brought to her attention with that level of power, were (1) Isaiah 57:17,18, which relate to my healing (as well as of humanity in general), alleviating her concerns about the seriousness of the charges against me and the public stigma about that, realizing that my falling and healing are both part of a divine plan; and (2) Isaiah 54:6, which relates to her marital situation (I would guess already dissolved), and her realization that this, also, was foreseen; and that indeed, her destiny is to become the wife of the Lord (she being Heavenly Mother incarnate).

The day prior, I had requested that these two passages come to her attention, which could be done through several different ways, e.g. via the cross references, via key words listed in the Topical Guide, via her just opening there “randomly” and her attention being brought to it that way, via someone else “randomly” leaving the scriptures open to one of those pages and her attention being brought to it that way, via a dream in which she is given the chapter and verse.

Then on Sunday, (1/1), as I was reading a General Conference talk by Elder Craig C. Christensen of the Presidency of the Seventy (*Ensign*, Nov. 2016, p. 28), and I came across the JS-H 1:12 wording, the thought came to me about asking that Lindsey be given that same magnitude of experience with those two passages. And as I brought that before the Lord, I received a strong confirmation that this was within the will of God and would be done.

I see both of these scenarios happening with Lindsey first, before the Saints as a whole, but that they will happen shortly (days) before the next set of events that also make bare the arm of the Lord.

### Power Verse in Prophecy Code

If something like this – something this huge in its impact – were truly in line with the mind and will of God, you would expect that it would show up in prophecy, at least encoded somehow.

It is.

The key verse in this is James 1:5, which led to Joseph Smith’s experience that I’ve asked to be repeated for Lindsey (with Isa. 57:17, 18 and 54:6) and for the LDS faithful (with D&C 133:67 and 2 Ne. 28:32). It occurs on page 1538 of the LDS Bible. And the definitions by that number in the Old and New Testament lexicons both (A) tie to James 1:5 – verbatim in the NT case – and (B) relate verbatim to the idea of this happening for “each and every one” of the LDS faithful.

1538-O: a skull (as round); by impl. a head (in enumeration of persons):-- head, every man, poll, skull

1538-N: each or every:-- any, both, each (one), every (man, one woman)

“If any of you lack wisdom, let him ask of God.” (James 1:5)

### Daniel Stone

Another thing I envision happening to get Lindsey’s attention, once her level of acceptance of this paradigm is at least a 5 on a 10-point scale, to boost her faith to an adequate level to step forward, is that the angels will excavate a huge (25x25x25 foot) marble stone that has exquisite engravings on all six faces, and deposit it on Lindsey’s parent’s yard (unless she now has a yard large enough in L.A). It will include a II screen on all six faces. It will have phenomenal artistic elements, large text, smaller text, and microscopic text that will not deteriorate. It will be protected by what I call a “Karma Shield” (what is sent to it returns to the sender).

It will be a literal manifestation of the Daniel 2 stone, “cut out of the mountain without hands.” It’s filling the whole earth is both via the II visual propagation as well as by the stone being moved from city to city, staying maybe a month per city. Each time it is lifted by the angels to be moved elsewhere, it will leave a stone imprint where it had rested, which will have the primary face of the stone text retained. The bottom of the stone, therefore, will be a reverse image of the first face. But this phenomenon will not be by natural means, but miraculous. The Karma Shield will also protect each of these. (The Karma Shield will likewise protect Lindsey and me. We won’t need body guards.)

Imagine how this will capture the attention of the planet when it shows up. Not only will it surpass any of the present wonders of the world in size and exquisiteness, and not only will it have the II screen which will enthrall the world, but it will bespeak the power of God in an undeniable way. No one will be able to honestly remain skeptical about God. *And at the root of this will be the repentance clause of prophecy.* It will be enshrined plainly on three of the five faces.

With the arrival of the Daniel Stone will be the arrival of the II, turned on, both spurring planetary repentance and signaling the pending Isa. 66:5 event (II<sup>nd</sup> Coming, sans tribulation), all of which entail the arrival of the kingdom of heaven on earth.

As mentioned, all this is contingent on Lindsey getting to at least a 5 on a 10-point scale in her acceptance of this paradigm. (And that will be a barometer indication of where the LDS are at as a body.) And that will be huge, given how strong the sentiment of repulsion is generally to me and my paradigm.

It was actually the Daniel stone that first spurred the idea of the II back on September 17, 2016. As I composed a draft of what would be on each face of the stone, the idea came of an "infinite interface" that would enable a computer camera trained on that screen relaying an infinite amount of information to whoever was viewing it.

The main brainstorm for the II came on October 20, which is what later gave rise to this present document.

### Daniel Stone Contents

Here is a brief description of the stone cut out of a mountain without hands via the angels, and engraved by them (via a "printer" type capability, which they can do, no problem).

- General Features
  - Stone
    - Material: Marble
    - Size: 25x25x25-foot cube
    - Weight: Much heavier than what any man-made mechanism could hoist or move in tact.
    - The entire engraved surface and text is immutable. If any damage should happen to any portion of it, it would immediately be restored.
      - The Karma Shield (that which is sent out shall immediately be returned) will protect it from any who might seek to do it harm.
  - The content of the four vertical surfaces is based on Ezekiel 1:10: "As for the likeness of their faces, they four had the face of a man [on the front], and the face of a lion, on the right side; and they four had the face of an ox on the left side; they four also had the face of an eagle [on the back side]."
  - Each side will have
    - A II screen of dimensions 2'4" high, 3'6" wide, with a default topic
    - A chiasm (A,B;...;B,A literary structure)
    - An exquisite artistic rendering
    - A key scripture reference
    - At the "bottom" of each side will be a number (214-217) corresponding to (A) the month/day date, (B) contents of pages in the LDS scriptures and appendices, (C) definitions by those numbers in the New and Old Testament lexicons (James Strong's numbering), (D) page numbers in English dictionaries I've been using.
    - "Micro-text" which can be noticed with a magnifying glass. It will be "ectype" (wrought in relief -- standing out, rather than engraved into the stone, with permanent ink on its surface that contrasts with the marble background color) and will be superimposed over the main content -- barely noticeable without a magnifying glass. The text content can easily be read (or transferred to an e-gadget for printing) via the II, but may require microscopic camera technology to read *in situ*. This is to make a statement about the importance of these texts thus preserved.
  - It turns out that the chiasm from faces 1,2 were the first and second of 40 chiasms I uncovered during my incarceration thus far; and the chiasm from faces 3,4 were the 39<sup>th</sup> and 40<sup>th</sup> chiasms I

uncovered. Seeing that, I decided the middle two, 19<sup>th</sup> and 20<sup>th</sup>, would be good to include on the top, 5<sup>th</sup> side.

• Six Sides (Cube)

1. "Face of a Man" [yin/yang variant]

- a. Main Image: A heart shape artistically formed by Lindsey bending over, playing her violin, on the upper half; and me laying down, leaning up toward her, on the lower half (similar to the famous God-man image of Leonardo da Vinci). Inside the heart will be the large text: "Lindsey, Will You Marry Me? – Sterling". Over this will be two roses. The key verse will be to the bottom right of the heart.
- b. Chiasm: Psalm 188, by SDA, March 18, 2016
- c. Key Verse: "[Her] bow abode in strength, and the arms of his hands [Sterling's use of scripture codes: chiasms, parallels, Alphabetic, GOST] were made strong by the hand of the mighty God of Jacob; (from thence [Joseph] is the shepherd, the stone of Israel)" – Genesis 49:24
- d. "Infinite Interface: Lindsey & Sterling"
- e. Micro-text:

- i. The content of my GreaterThings.com website, including all my chiasms, parallels, Alphabetic word studies, books, essays, letters, blogs.
- ii. Spiritual articles I've posted at PESN.com, PESWiki.com and elsewhere.
- iii. My jail/prison blogs, chiasms, parallels, studies, letters.

- f. Centered at Bottom: "214"

2. "Lion"

- a. Chiasm: Isaiah 66 by SDA, March 24-26, 2016
- b. Main Image: A lion, tying to Asland of C.S. Lewis' *Chronicles of Narnia*
- c. Key Verse: "Blessed are thou, Nephi, for those things which thou hast done; for I have beheld how thou hast with unweariness declared the word, which I have given unto thee, unto this people. And thou hast not feared them, and hast not sought thine own life, but has sought my will, and to keep my commandments." – Helaman 10:4
- d. "Infinite Interface: Sterling David Allan"
- e. Micro-text:
  - i. The LDS "Standard Works", including the Bible, Book of Mormon, Doctrine and Covenants, Pearl of Great Price – as marked up by myself with underlining, coloring, margin notes.
  - ii. The Appendices, including Topical Guide, Index, Bible Dictionary, Maps, Joseph Smith Translation. Both the 1979&1981 Copyright versions as well as the 2013 Copyright versions.
  - iii. The original "Reformed Egyptian" text, from which the Book of Mormon was translated via the Urim and Thummim by Joseph Smith.
  - iv. The original Hebrew from which the Old Testament was translated.
  - v. The original Greek from which the New Testament was translated.
  - vi. Any original texts relevant to the Pearl of Great Price.
  - vii. Any "Rosetta Stone" types of material to aid in these translations.
- f. Centered at Bottom: "215"

3. "Eagle"

- a. Chiasm: Bible Page 1029 Chiasm by SDA, October 15, 2016
- b. Main Image: Eagle and "We the People"
- c. Key Verse: "The stone which the builders refused is become the head stone of the corner." – Psalm 118:22
- d. "Infinite Interface: Gentiles = LDS < Christians < USA < West"
- e. Micro-text: My Primary Reference Texts, including Strong's Concordance of the Bible, Zodhiates' Complete Word Study of the New Testament, Gesenius' Hebrew-Chaldee Lexicon to the Old Testament, English Dictionaries I've used.
- f. Centered at Bottom: "217"

4. "Ox"

- a. Chiasm: 9/23 Letter to Lindsey Chiasm by SDA, Oct. 17,18, 2016
- b. Main Image: An ox pulling a handcart, with the SLC temple and Mt. Olympus (Utah) behind it.

- c. Key Verse: "Trust in the Lord with all thine heart; and lean not unto thine own understanding. In all thy ways acknowledge him, and he shall direct thy paths." -- Proverbs 3:5,6
  - d. "Infinite Interface: Lindsey Stirling"
  - e. Micro-text:
    - i. The Only Pirate at the Party, by Lindsey Stirling (biography)
    - ii. Some of her favorite spiritual books
    - iii. Photos of her performing
    - iv. Her scriptures, as marked by her (minus any private markings)
  - f. Centered at Bottom: "216"
5. Dove (Top)
- a. Chiasms: Isaiah 11; Jeremiah 31:33 Chiasm by SDA, June 23, 24, 2016
  - b. Main Image: Dove of peace
  - c. Key Verse: -- Isaiah 54:9
  - d. "Infinite Interface: Ecumenical"
  - e. Micro-text:

- i. Key scriptural texts of the major world religions
  - ii. Original versions of those texts
  - f. Centered at Bottom: "213"
6. (Base) A mirror image of Face 1
- As the stone is moved from city to city around the world by the angels, maybe staying at one location for a month, before moving to the next city; a permanent stone image will be left behind where the stone rested, which will be a recapitulation of Face 1 as a permanent reminder.

## II Screen in the Sky

Fifteen minutes after the Daniel Stone appears, I envision thousands of angels ascending from the stone nearly vertically to a distance of 2 earth diameters and creating a II screen in the sky that is 2/3 the earth's diameter in width. That might sound large, but at that distance, it will be about like looking at a greeting card (4.25 x 7-inches) at arms length (adults). That II frame will be so bright that it will illuminate the dark side of the planet as if it were mid-day for 46 hours, from 2/14 0:55 through 2/15 22:00 Eastern Standard Time, similar to the two days and nights without darkness in the Americas at the time of Jesus' birth in Bethlehem. (Hel. 14:4.)

(See "Day 1" in the abbreviated Timeline below for a description of how this screen unfolds.)

That II screen in the heavens will certainly get the planet's attention to the II capability rollout, but it will also draw their attention to the repentance clause associated with it; and the pending Second Coming of Jesus.

There won't be anyone alive who will not notice or not know about this development.

At first, I envisioned millions of angels interspersed within the heavenly II screen frame, serving as pixels of light, turning on and off, to display composite images down to the earth, both still and moving, orchestrated by the "mainframe" Spirit of God. I'm sure they could do that, but when I asked the question via the GOST (Guided Opening of Scriptural Texts) method I've been using, "Will the angel II screen of light in the sky be able to display in color?" (posed on 12/16/16, 5:20 am), the first place I opened to was pp. 228 [first 3 digits of my prison ID], 229 of the Topical Guide (2013), which is where the term "Interface" inserts alphabetically. The impression I got was that it would be much better if they just did the screen, and the individual angels (7<sup>+</sup> billion -- one for each of us) could then present content most suitable to each individual, rather than the same content for everyone at the same time. This is the whole essence of what makes II so superior.

The thrust of the first few minutes for each person when they become aware of the II screen, whether up in the sky or written on a piece of paper in front of them, will be (1) an introduction to the II capabilities, (2) the repentance clause that is being presented to the planet to avert the destructions and calamity to which we are surely headed otherwise, and (3) an announcement of the pending appearance of Jesus in glory, this screen being prelude to that.

## Requirements for Those Who Want to Attend Live

Sterling D. Allan, 228033; U-Prep class: Write Your Own Business Plan; Jan. 14, 2017

The White Hill hillside surrounding the meditation area at our Safe Haven Villages (.org) (SHV) 90-acre intentional community property we own north of Ephraim, Utah could accommodate thousands of people, though only hundreds will physically be able to see down to where we (Lindsey and I) will be.

But with a II screen in hand, all these people could see from any angle, any proximity they want, whether there or anywhere else in the world.

The prerequisites / requirements for people attending the event include:

- Need to be D&C 93:1 compliant: “Verily, thus saith the Lord: It shall come to pass that every soul who forsaketh his sins and cometh unto me, and calleth on my name, and obeyeth my voice, and keepeth my commandments, shall see my face and know that I am...” (Basically repentant, and obedient to God.)
- Need to be nominally a believer in the paradigm I put forth. Skeptics and hecklers are not welcome and will have serious repercussions if they try to show up to cause problems. (Think Karma Shield.)
- Need to realize that I’m considered an “apostate” by the LDS Church, and be okay with that, realizing that through history prophets and holy men and women of God have been cast out by the “Lord’s people,” e.g. Lehi from Jerusalem by the Jews, Jesus by the Jews, etc.
- They realize that this event will double as an announcement of Lindsey and me becoming engaged to be married, and need to be okay with that.
- They realize that I see Lindsey as an archetype / stand-in for the LDS macrocosm bride of the Lord, and that the LDS Church will be set in order immediately following this event (e.g. Isa. 66:6; Malachi 3:1; D&C 85:7, 8), to then awake and put on strength to do what they were foreordained to do in leading the kingdom of God on earth.
- They need to realize that a key part of my paradigm has Lindsey and I as the head couple for the coming Millennium for this planet, with Jesus as our son (Lindsey was Mary in a former lifetime).
- They need to realize that the SHV intentional community views the SHV property as sacred (mother earth should be treated gently) and that as they walk around on the property they should try to stay to established paths and walk very gently when not on a path.
- Need to dress appropriate to the temperature through the night (which I expect to be mild, considering the time of year), and realize the event is expected to last through the night. I expect that the angels will be accommodating everyone for the supping that will take place. Bringing soft padding for sitting on the ground would be a good idea.

I expect people to self-scrutinize whether or not they should try to attend in person. Angels will help in preventing those who should not be there from arriving.

On the other hand, anyone from anywhere on the planet, who sincerely desires and deserves to be here will be accommodated to be able to get here (explained individually to them, via the II – privately, for now – hint: City of Enoch).

Inmates from anywhere in the world, who have repented and are ready to live on the outside and who wish to be part of this event and are worthy, are welcome. Angels will escort them from their incarceration, and assist them in transportation to the event. They will not be returning to their incarceration, hopefully ever.

### Event Logistics

Parking on the 90-acre property is quite sparse (full of sage brush, ravines, rocks), but hopefully several surrounding farmers will open their fields to parking. As for getting directions, remember that the II can not only guide you to the property but to an open parking spot – and a navigable path to that spot through a field.

On 12/11/16, I sent a letter to the SHV director (Susan Manning-Brooks, my ex-mother-in-law) with suggestions for orchestrating the logistics for this event, including:

- Ushers
- Water dispensers and cups
- Portable Toilets
- Vendors for meals (people will be showing up all day long)
- Vendors for supplies that might come in handy: flashlights, mittens, caps, pads for sitting, cups

Sterling D. Allan, 228033; U-Prep class: Write Your Own Business Plan; Jan. 14, 2017

- Having a first aid tent with Band-Aids, etc.
- Coordination with local authorities for things like,
  - Having officers on hand to help escort troublemakers from the property.
  - Having ambulances on hand for possible pre-event mishaps, (Once event is under way, the angels can perform miracles to heal any mishaps.)

As for air logistics, I request that the authorities block the airspace above us so that we are not bothered by helicopters, drones, planes, and other craft during the visitation. (Jets crashing into ascending angels in the early morning wouldn't be so great – ha ha, the angels know how to avoid such things. Jet noise is a distraction, though.)

## Meeting in the Air

According to JST 1 Thessalonians 4:17, “Then they who are alive, shall be caught up together into the clouds ... to meet the Lord in the air.” The righteous faithful living on earth (many gathered at SHV) are quickened (D&C 88:96) and lifted up to join Jesus and the angels in the air. Those who are not thus lifted up didn't qualify.

[There are various gradations of the meaning of “quickened.” On one extreme, it is synonymous with resurrection (John 5:21; 6:63; Rom. 4:17). On the other end of the spectrum is a sort of spiritual turbo-boost (e.g. D&C 67:11–13; 1 Cor. 15:45). I believe it is the latter type that is referred to in D&C 88:96.]

**Facility for Air Meeting** – As I've inquired about this, whether we'll just be hanging out in the air, or if there will be some kind of craft / building / structure where we'll be meeting; the answers I've gotten point strongly to the latter. You might think of it as a sort of huge “mother ship.” It will be more than spacious enough to accommodate around a million (rough estimate) of us earthlings, plus all the angels (more of them than us). If anything “UFO” is uncomfortable for you, then think of it as a castle in the sky.

I envision it being high enough in the air that all of the continental United States can see it from the ground (except where mountains or hills might obstruct a direct view). *Everyone from anywhere can view it* from any perspective via the II, unless the view they wish to see is accessible only to those of a particular spiritual level.

It won't be the New Jerusalem, which John's description (Rev. 21:16) says is nearly as big as the moon, at 2222 km<sup>3</sup> – 500 km wider than the Gulf of Mexico – and is going to have gravitational pull when it shows up.

We will have a **climate-controlled setting** suitable for comfortable human quarters, with seating, clean air in proper ratios for breathing, refreshments and catered meals, sleeping / resting quarters for those who are not up to staying awake during what is normally a sleeping time for them.

Each human there will have a resurrected angel to accompany them.

**Transport** – Obviously there will be some kind of means of conveying us from the ground, wherever we are, up to the meeting location. That is not going to entail encountering wind resistance as we zip along, nor will it require gear such as breathing equipment, temperature control, airfoil, and G-suits. The transport will be pleasant, free of a sense of acceleration and moving back and forth (which could lead to motion sickness in some). Those who might be troubled by the sight of flying up into the air can have their field of vision blocked from that scene.

## Timeline Synopsis

Here's a simplified listing of the sequence of key events as I see it – in the scenario of evoking the repentance clause.

This is according to the next likely window of time spanning February 13 through 17, 2017.

### PAST

- I've been sending many letters with evidence to Lindsey since Feb. 25, 2015. These have mostly been included in a public blog, to help prepare the minds of especially the LDS faithful, but also people of other faiths who are amenable.

Sterling D. Allan, 228033; U-Prep class: Write Your Own Business Plan; Jan. 14, 2017

- Since my incarceration 2/22/16, I have not been able to find anyone willing to help post any of my material, so the things I've been writing since then have just been accumulating at a few (non-helpful) places on the outside.
- Since Oct. 4, 2016, I've been sending letters directly to Lindsey's P.O. Box, finally getting that address. But I don't think she's been personally receiving them (via her staff) or reading them. (I've received no response of any kind.)
- On Dec. 11 and 18, 2016 I sent updated copies of this business plan to my brother, Nathan to scan and post to my Facebook page. (He hasn't written back; so I don't think he did.)
- I plan to send the next draft to Kevn Lambson, my brother in law, who might be more likely to actually post it to my Facebook account for review by my family, friends, associates.

## FUTURE

### Three Fatal Event Deliverance Situations

(~ Feb. 1-7 time-frame; possibly earlier)

- Lindsey has her three deliverance miracles experiences; realizes she should pay attention to what I've been sending her and stop disregarding it.
- Situations for Saints

- (A) Utah "Killer Storm" mitigated
- (B) Wasatch Fault earthquake, mere 4 on Richter scale
- (C) Large meteor headed to downtown Salt Lake City disintegrates to dust

- Result: People who know me or of me, having seen my last, first, middle names brought to their attention as they contemplated being spared from each of these situations, will realize: (1) this was a miracle from God; (2) I'm associated with God and deliverance.

### Power Verse Experience

(~ Feb. 8-12 time-frame; possibly earlier)

- On a level similar to how James 1:5 was presented to Joseph Smith (JS-H 1:12) with great power, Lindsey is impacted by Isaiah 57:17,18 and 54:6; opening her up to stepping forward to doing the Isaiah 66:5 experience with me.
- D&C 133:67 and its cross-reference, 2 Nephi 28:32 is presented powerfully, in similar manner, to each individual of the "faithful LDS." This opens them up to stepping forward to be part of the Isaiah 66:5 appearance as well, when it is announced along with the I.I. emerging a few days or hours later.

### II<sup>nd</sup> Coming

- Day 0 (2/13/17; Pages 213)

- 23:30 (Eastern Time) The angels of God escort me from prison (e.g. per Isa. 49:9; p. 92) Lindsey's B-day) so I can observe things as they unfold without the encumbrances of being in prison.

- Day 1 (2/14/17; Pages 214)

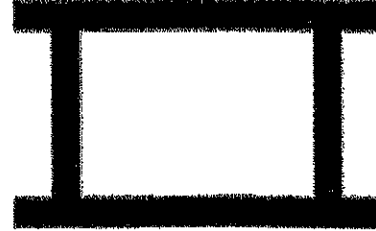

- (Midnight, Eastern Time) 0:00 am
  - A variant (because the power verse experience has set in motion the repentance clause) of D&C 88:92 is heard by everyone on the planet, in their own language, three times in 15 minutes (after being woken up, if they are asleep).  
"Hearken, O beloved inhabitants of the earth; repent ye, repent ye; and the destructions and captivity to which ye are headed as a people will be turned away. If ye repent, behold, and lo, the bridegroom cometh; prepare ye to go out to meet him."
  - The Daniel Stone shows up at Lindsey's parents' house (or to her own property, if she has suitable land). It sounds and vibrates like a huge footstep as it compresses on the ground. On face 1 is the text: "Lindsey, Will You Marry Me? – Sterling"
  - 0:00 – 0:15 – While the voice is being heard, repeated throughout the world, locals, including dwellers in Lindsey's parents' house, are given an opportunity to view (gawk / awe / wonder at) the stone, and notice the activated I.I. screens.
- 0:15 – 0:45 – Upward from the Daniel Stone, a stream of angels ascend essentially vertical toward a destination 2 earth diameters away from the outward-most part of the earth opposite the sun. They will start at a rate of ~50 mph, with an angel every 10 feet; but will end up at a rate of several thousand mph out in space prior to arriving at the destination. There could be several columns of angels ascending, in order to accommodate all who will participate in this. One column running at this rate for half an hour would convey 33,000 angels.

Sterling D. Allan, 228033; U-Prep class: Write Your Own Business Plan; Jan. 14, 2017

At ground level, the angel brightness will not be so bright that someone standing nearby on the ground couldn't look at them; but as the angels ascend, they will incrementally increase in brightness until they attain full brightness at their destination, at which point they each have a brightness equivalent of around 5 GW (gigawatts – the energy of a nuclear power plant), forming one pixel, so to speak.

- 0:45 – 1:15 – As the ascending angels begin arriving at the destination two earth diameters away, opposite the sun, they will begin to form a II screen. Also, the text, "Infinite Interface" will be displayed at the top, which will be toward the south so as it comes into view in the eastern sky at night, the words will spell out from left to right. The screen will enlarge as the angels arrive, until all have arrived half an hour later. It will take about 10 minutes until the screen is large enough to be noticed for what it is and thus begin functioning. The size of the screen will be ~2/3 the earth's diameter, which will be about like looking at a greeting card held at arm's length.

## Infinite Interface

The aggregate brightness of this screen will illuminate the dark side of the earth opposite the sun as if mid-day.

- 0:55 through 2/15 20:30 – For ~46 hours, this sky-positioned, angel screen will serve as a II screen as described herein, so that its contents are user-specific as conveyed to their mind by their angels. The purpose of these first few hours of display (most locations will see it for around 8 hours per night) will be to **announce and demonstrate the II capabilities, and conditions – the repentance clause**. They will quickly realize / be told that they don't need to view the sky-based II screen, but can draw a screen on a piece of paper, or arrange a larger one on a wall (e.g. white board), for viewing at their leisure and comfort in their home, business, or wherever they are.
- Lindsey (and everyone else) will realize that this is definitely for real.
- The news of the Daniel Stone will capture the world's attention, and **the II screen will propagate globally**.
- Awareness of the repentance clause / invitation also propagates globally, bringing about Isa. 66:8 "Shall the earth be made to bring forth in one day? Or shall a nation be born at once?"
- Lindsey steps forward, makes her way to Central Utah
- Lindsey and I have an in-person getting acquainted session
- Others will learn about the pending appearance of Jesus in Glory on 8:00 pm (Mountain Time) Feb. 15 over SHV and will begin contemplating and preparing the logistics of how they can get there: (transportation (those from a distance, who really wish to attend, will be given instruction about how to do this), warm clothing, who to bring with, comfortable padding for sitting on the ground, snacks.
- Those willing to help with event logistics (vending, ushering, water, first aid, etc.) will begin preparing.

### Day 2 (2/15/16; Pages 215)

- ~0:00 (MST) The Daniel Stone is moved by the angels (via their anti-gravity abilities) from Lindsey's parents' home to Salt Lake City, e.g. Liberty Park. (It will stay in SLC for about a month before being moved to Jerusalem for a month, thereafter continuing on in its global display, city by city.)
- **RESURRECTION** – Per 1 Thessalonians 4:16, the "dead in Christ" rise from their graves. Since many if not all of the angels up in the sky will be of this contingent, they will need to descend, be reunited with their body, then appear and minister to people (3 Ne. 32:9,11; can also happen after all this is over), then re-ascend to the II in the sky to later descend together with Jesus. I envision the angels taking shifts to accomplish this.
  - 0:00 to sunrise (MST) – The angels take turns descending, resurrecting, ministering, re-ascending. I envision them descending to and ascending from the Daniel Stone, creating a pillar of light from their traffic between the stone and the II shape in the sky.
- The Daniel Stone awareness and the II continue propagating globally.
- Those who wish to attend the Isa. 66:5 event begin arriving at SHV.
- Those willing to help with event logistics (vending, ushering, water, first aid, etc.) will be preparing and arriving.
- Lindsey and I continue getting acquainted, preparing for the Isa. 66:5 event.
- Around 13:00 (MST) – Lindsey and I arrive at SHV, begin mingling, greeting people.

- Around 16:00 (MST) – Lindsey and I put out a call for any LDS, Christian, government, or other high dignitaries who are present; and introduce them, via the II. (I don't expect many if any of these to show up.)
- Around 17:30 (MST; sun going down) – Lindsey and I begin making our way to the meditation area at SHV. Continue mingling.
- ~18:00 sun set (On 2/14, the sun will set at 6:02 MST)
- **DESCENT TO MEETING POINT**
  - 19:30 MST Jesus gives a "shout" from the II resurrected angel gathering in the sky, audible via the II worldwide. I'm guessing that the tenor of his voice will be full of joy and love in giving that shout will be something that sounds like "Yippeel, Yahoo!, Yeah!, It's about time! I'm so happy that we're doing this, not following destructions, but without tribulation!" <I'm having major tears as I write that, as my best friend, William Hart, sitting next to me could attest, if I asked him to. (He's busy working on his free energy device business plan.) [I ended up having him read this paragraph, after which he looked over at me, with a smile, to tell me briefly about an "Atlantis under the South Pole" expedition episode he listed to last night on Coast to Coast AM. (1/14/17; ~10:12 pm MST)]>
  - 19:30 – 20:00 (MST; after sundown on Pacific coast) – Maintaining the II shape, Jesus and all the angels, who all have been making up the II sky screen display descend from the east toward our SHV meditation area, where Lindsey and I and every else has who has shown up will be gathered. As the angel contingent descends, they will gradually combine closer together and diminish in their brightness incrementally. However, their combined location and brightness will be such that from the SHV location it will appear that (1) it is moving from the east to over-head, (2) it is getting brighter. It will continue to operate as a II screen for everyone who can see it, until it arrives at the meeting place in the air.
  - As the II shape arrives at the meeting location / facility / craft, high over the United States, I envision the angels surrounding the craft to highlight its size and shape.
- 20:00 (MST) – **MEETING IN THE AIR**
  - For details, see "Meeting in the Air" section above.
  - Our meeting with Jesus and the angels lasts through most of the night, including: supping (Rev. 3:20; 3 Ne. 20:6,7; 18:24,25), healing, anointing, transfiguration, instruction, teleportation training. Some of these things might be limited to Lindsey and myself. The others assembled will be receiving similar instruction via the angels. Or they could choose to watch the interaction of Jesus with Lindsey and myself via the II.
  - Everyone on the planet will be able to view portions of this (e.g. the descent and certain group message) via the II. But certain things will be worthiness-contingent in order to view.
- Day 3 (2/16/17; Pages 216)
  - Meeting continues from previous night.
  - 3:00 – 3:30 am (MST), Jesus, the angelic hosts, and those of us who were lifted up, will disperse from the meeting-in-the-air location. I envision all the angels turning on their light so that it appears like a huge fountain in the sky, as they disperse in various directions from which they came (e.g. from the people over whom they are in charge as guardians). This "fountain" will consist of many thousands of resurrected angels over the space of half an hour. Their light will once again illuminate the nighttime sky as if it were day. There will be more angels involved in this portion than were involved ascending from the Daniel Stone to make the II screen over the nighttime earth.
- Day 4 (2/17/17; Pages 217)
  - The initial setting in order event happens, probably at the Salt Lake Temple. (See Isa. 66:6; Malachi 3:1; D&C 85:7,8)
- Emerging from this, in a matter of a short period of time, the 144,000 Ones Mighty and Strong saints will help set in order what is up-side-down, turning it right-side-up, across all sectors of society in all nations. (Ezk. 21:25-27; Gen. 49:10) The II will be an important resource for accomplishing this.

## From This We Know . . .

Coming from this February 14-17 timeline above, as it plays out, humanity will be aware that the following points are certain:

Sterling D. Allan, 228033; U-Prep class; Write Your Own Business Plan; Jan. 14, 2017

- God is real, essentially as described in the scriptures.
- Jesus is real, essentially as described in the scriptures.
- God is here, in the flesh: Lindsey as HMITF and myself as HFITF.
- Angels are here to guide us on behalf of God.
- We all have divine destiny.
- We need to wake up to our individual divine mission and work to be faithful to it.
- The primary purpose of the II is to help us do that.
- We averted societal destruction by societal repentance.
- Lindsey is the microcosm-level bride of the Lord; and the LDS Church is the macrocosm-level bride.
- There is a big wedding is coming up.
- The scriptures are of God, generally speaking.
- When it comes to revelation and a godly walk, our most important task is to get a personal relationship with God and follow that.
- There is indeed a conspiracy to overthrow the freedom of all lands, nations, and countries. We need to awake and route that conspiracy and support freedom.

## Repentance Clause References

Above, I listed the repentance clause references. I'd like to cite a few of the most clear / obvious.

### 2 Ne. 28:17,32

This first one is about as clear as it gets.

"But behold, *if* the inhabitants of the earth shall **repent** of their wickedness and abominations they **shall not be destroyed**, saith the Lord of Hosts."

"**Wo be unto the Gentiles**, saith the Lord God of Hosts! For notwithstanding I shall **lengthen out mine arm unto them** from day to day, they will deny me [see "rejection prophecies" set above]; nevertheless, **I will be merciful unto them**, saith the Lord God, *if* they will **repent** and come unto me; for mine arm is lengthened out all the day long, saith the Lord God of Hosts."

[Jan. 14, 2017 memo: I had listed this one first from mid December, prior to my having selected 2 Nephi 28:32 as one of the two "Power Verses" at the end of December.]

### Ether 2:11

This reference basically says that a key intent of the Book of Mormon is to spur the repentance clause, rather than seeing the Gentiles go where they are headed.

"And this [Jaredite account, Nephite account = Book of Mormon] cometh unto you, O ye Gentiles, that ye may know the decrees of God—that ye may **repent** and not continue in your iniquities until the fullness come, that ye may not bring down the fullness of the wrath of God upon you as the inhabitants of the land have hitherto done."

### 3 Ne. 16:13,14

Every one of the 12 instances of "saith the Father" in the scriptures (11 of them in 3 Nephi) have to do with the repentance clause. This is integral to the work of the Father.

"But *if* the Gentiles will **repent** and return unto me, *saith the Father*, behold they shall be numbered among my people, O house of Israel. And I will **not** suffer my people who are of the house of Israel, to go through among them, and **tread them down**, *saith the Father*."

Sterling D. Allan, 228033; U-Prep class: Write Your Own Business Plan; Jan. 14, 2017

Verse 15 gives the non-repentance scenario, which is basically what those who study prophecy are expecting. They are not expecting or hoping for the repentance scenario to play out. It doesn't even cross their mind. They dismiss it out of hand as a feasible future scenario.

### Jeremiah 18:8

Here's a broad generalization of this macrocosm principle.

"If that nation, against whom I have pronounced, turn from their evil, I will repent of the evil that I thought to do unto them."

### Jonah 3:10

With nearly identical / verbatim wording to Jeremiah 18:8, here is the most well-known instance of such repentance; Nineveh:

"And God saw their works, and they turned from their evil way, and God repented of the evil that he had said that he would do unto them; and he did it not."

### 2 Chronicles 7:14

This is perhaps the most generally well-known proclamation of this principle.

"If my people, which are called by my name, shall humble themselves, and pray, and seek my face, and turn from their wicked ways; then will I hear from heaven, and will forgive their sin, and will heal their land."

### 2 Peter 3:9

"The Lord is not slack concerning his promise, as some men count slackness; but is longsuffering to us-ward, not willing that any should perish, but that all should come unto repentance."

### Proverb 28:13

"He that covereth his sins shall not prosper; but whoso confesseth and forsaketh them shall have mercy."

This is as true of societies as it is of individuals.

### D&C 58:42

This one is worded similar to Proverb 28:13.

"Behold, he who has repented of his sins, the same is forgiven, and I, the Lord, remember them no more. By this ye may know if a man repenteth of his sins—behold, he will confess them and forsake them."

### Ezekiel 18:30

"...Repent, and turn yourselves from all your transgressions; so iniquity shall not be your ruin."

## Part 6: Promotional Text

### Generic

The Infinite Interface ( , hereafter II, or “two” / “to”) is a “screen” view that is made possible by the angels of God projecting an image and audio in full fidelity into your mind as if you are “watching” it on a II shape in front of you, with “Infinite Interface” written over the top of it – in any language.

Controlled instantaneously by *mind commands*, the II can be used for things like:

- searching; • reading; • viewing; • composing; • location positioning; • communication;
- interaction with e-gadgets (technology 1.0); • group interactions; • pictures / videos / movies; and
- virtual / induced reality experience including viewing present, historic, and future material (if your mission involves that).

The angels know you, what your strengths and weaknesses are, your history, your special talents, your God-calling / mission in life, and what mood you’re in; and can therefore present the **most suitable content** to interest, motivate, and empower you.

II will be a gift from God to humanity for having achieved the launch of the Kingdom of heaven on earth, without tribulation, through the repentance of a sufficient core of people (Isa. 66:7-8; 3 Nepht 16:13-14; 2 Ne. 28:17; Ether 2:11; Jeremiah 18:8; 2 Chronicles 7:14).

### Simplified

The Infinite Interface is a “screen” view direct to your mind by the angels of God, based on earth-created content stored in and pulled from a heavenly repository of that information with perfect fidelity.

It is a gift from God to humanity based on a stipulation that enough of humanity repents. It will inspire and guide humanity to step into their best selves.

It is abbreviated  or II, pronounced “two” or “to.”

To create a “screen,” just draw a rectangle, such as on a piece of paper, and write “Infinite Interface” written over the top of it. Or you could look at a brick on a wall and imagine “Infinite Interface” written above it, and the screen will activate. A blind person could image such a screen in their mind and it will activate, and they will now both be able to see and to use all the II functionality. The screen can be any size or shape, though rectangular is the most usual.

It will work in any language and translate to / from any language, perfectly, written or spoken, including animals and extraterrestrials.

**Infinite Interface**

The II is controlled instantaneously by *mind commands*. You think it, and the angels present the content accordingly – as long as you’re being nice.

The II can be used for things like:

- communication
- searching
- reading
- viewing
- composing
- location positioning
- interaction with e-gadgets (technology 1.0)
- group interactions
- pictures
- video

- movies
- virtual reality, including viewing present, historic, and future material (if your mission involves that).

All content must / will be AF13 compatible. (LDS Articles of Faith 13, briefly: "We believe in being honest, true, chaste, benevolent, virtuous, and in doing good to all men... If there is anything virtuous, lovely, or of good report or praiseworthy, we seek after these things." [Located on page 365 (relates to Dec. 30) of the Doctrine and Covenants, © 2013, extrapolating forward the D&C pagination into the Pearl of Great Price.]

The angels know you, what your strengths and weaknesses are, your history, your special talents, your God-calling / mission in life, and what mood you're in. They can therefore present the most suitable content to interest, motivate, and empower you.

The II is a gift from God to humanity for having achieved the launch of the kingdom of heaven on earth, without tribulation, through the repentance of a sufficient core of people (Isa. 66:7,8; 3 Nephi 16:13,14; 2 Ne. 28:17; Ether 2:11; Jeremiah 18:8; 2 Chronicles 7:14).

So, if you need to repent, please do so, in order to have this blessing warranted for humanity. The angels will guide you to things for which you need to repent. Pay attention, and be obedient.

### Debut Content

In addition to the above overview / simplified content, here are some things I recommend for the angels in introducing the II capability to the people over whom they are in charge:

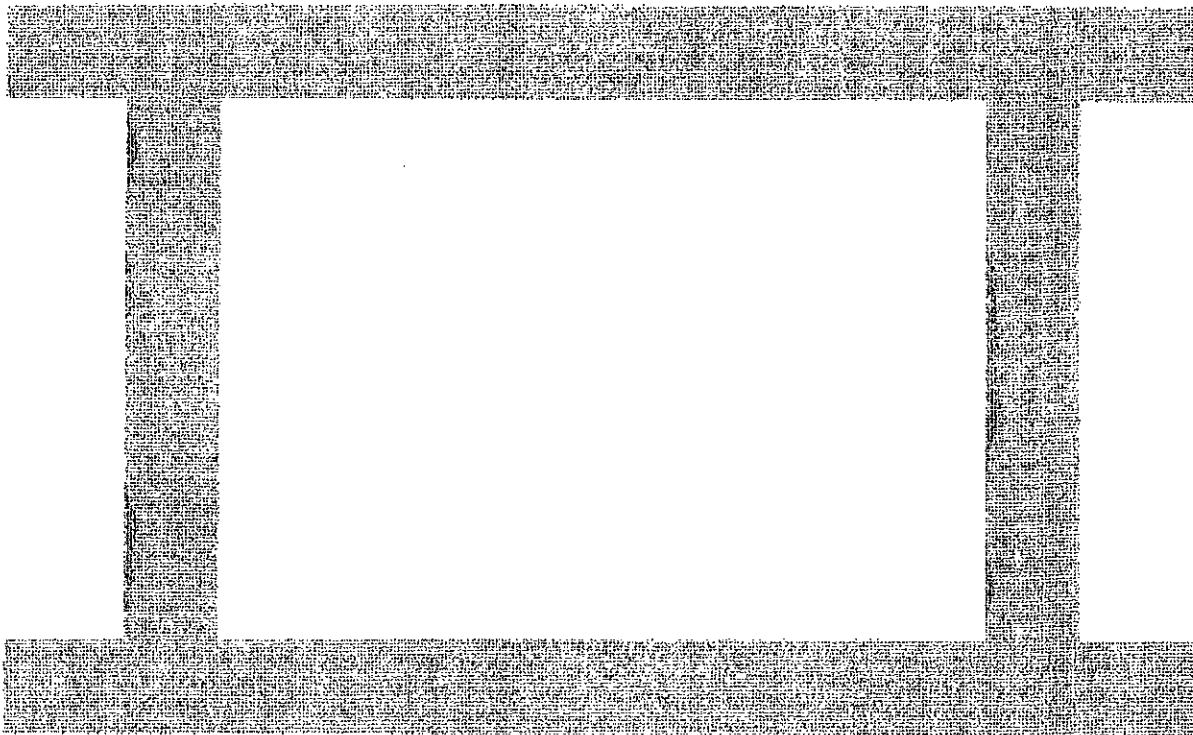

1. Facey Text in 3D: "Welcome to the Infinite Interface."
2. Default Topics of II screen (for those who don't yet know what this is or does, as they see the angel II screen in the sky or see the screen on TV or other debut settings for them).
  - a. 30 to 60 seconds should be enough to get their attention. Need to keep this brief
  - b. Chosen by guardian angels for you to best interest, inspire, awaken, entertain, spur you to repentance.
  - c. The very first thing to show should be an AF13-compatible clip that you are already familiar with, but via the II.
  - d. The main things you will notice at first are:
    - i. Familiar content, but much better quality.
    - ii. It is going straight to your mind, not via your eyes, ears, and other sensory capabilities of the mortal body.
    - iii. Perfect fidelity
    - iv. 3D.
    - v. (Optional) aroma and/or other environmental sensations from the original
  - e. Daniel Stone topics to display later include the best of (1) Lindsey & Sterling; (2) Sterling-David Allan; (3) Gentiles - LDS - Christians - USA - West; (4) Lindsey Sterling; (5) Beumonteal
3. Run-through of the "Simplified" Overview content, above. Assure them they can come back to anything they want to probe more, later.
4. Demonstration of communication capability - eye to eye: "Who would you like to talk to, who is awake / available?"
  - a. It's okay for friends / family to wake up friends / family. It's their voice the person will hear waking them up: "Wake up, Sally, I've got something amazing to tell you."
  - b. As they are talking, point out:
    - i. Notice that it's 3D
    - ii. Notice that you're looking at him/her eye to eye.
    - iii. Perfect fidelity in image and audio.
    - iv. You want to include the aroma?
    - v. What about the air conditions - breeze, temperature?
    - vi. Volume up, down; mute background noise
5. You realize you can do this screen pretty much anywhere, right? Let's change to a different screen location to see how easy it is to switch. Now find something large near a comfortable place to sit or even lie down.

Sterling D. Allan, 228033; U-Prep class: Write Your Own Business Plan; Jan. 14, 2017

6. What's your favorite short video? Let's see how it looks, sounds, etc. via the II.
7. Now, let's try doing a search.
8. Text:
  - a. Let's take a look at the book you are reading right now, and go right to where you last left off.
    - i. Look how easy it is to leave notes in the "margins", links to relevant material.
  - b. What about something you wrote by hand recently (e.g. a memo on a napkin in a restaurant, or next to your bed). Do you want to see a transcribed version?
  - c. Let's take a look at something you wrote translated into Chinese, or Spanish, or any other language.
    - i. What about spoken in those languages.
  - d. Speaking of translations, do you want to hear a translation of your pet or other animal? Or a scene from an animal movie you like? Or video?
  - e. Look at how easy it is to compose a document: think it, and it appears on the screen, complete, proper punctuation and spelling.
    - i. Do you see it now on your computer?
    - ii. Now you can print it out.
  - f. Is there something you've written – a document / letter / rough draft / article – that you wish you had a copy of? Here it is.
  - g. What about a document you're working on right now? You can work on it here, then transfer it back, completed.
  - h. What about a document from history that you wish you had, including things that may have been destroyed? Here it is.
9. Induced Reality
  - a. What live event did you attend recently (AF13 Compliant) that you really liked? Let's go there again, but now via the II. You can go high, low, in, out, left, right, etc.
  - b. How about a tour of a place you have been wanting to travel to? – from the sky, move around at will from place to place
  - c. Now, let's go some actual places / times in history: (voice over translations included)
    - i. The garden of gethsemane
    - ii. Jesus' trial
    - iii. Crucifixion
    - iv. Resurrection
    - v. Ascension
    - vi. Joan of Ark
  - d. Space Shuttle launch from astronaut's seat – environmental settings
  - e. In recent times, let's see some of the nefarious things the conspirators of our day have been up to:
    - i. U.S. insiders planning 9/11
    - ii. U.S. military placing demolition charges in WTC Buildings 1, 2, 7.
    - iii. Let's see what your government leaders are doing this very minute (if it isn't legitimately "privacy protected" and is AF13-Compliant)
  - f. Future View: Second Coming snippet from Feb. 15, 16.
10. Privacy Protection
  - a. Let's try going somewhere that obviously we don't have permission to go. Can't do it.
  - b. Let's try viewing a document that obviously we don't have permission to see. Can't do it.
11. AF13 Censorship – Blurring and Muting
  - a. Let's look at some websites to show the blurring out of non-AF13 material, e.g. InfoWars.com CNN.com Note how most of the ads are blurred.
  - b. SNL clip
12. Let's try the position location capability. Where are you? Where is the person you called.
13. Who do you trust to be able to do a telepathic communication with? Do you want to try that?
14. Monetized Content (Optional)
  - a. Let's set up your PII account (plus one or more for your business(es), if relevant).
  - b. Note that you have \$25 ISI (the new monetary standard, called "Immutable Sterling Instrument," which is essentially equivalent to 1 USD of the year 2000) in your account. This is a gift from God, to prime your usage of this capability and win your confidence.
  - c. Which bank account(s) do you want your account linked to?
  - d. "Test Drive:"

- i. What music would you like to listen to? Now you can pay for it from your PII account, and now it has perfect fidelity.
  - ii. Now you can watch any movie, too. Your payment will go to the theater or producer, with II retaining a default 10% for providing the service.
  - iii. Set up subscription payments.
  - iv. Set up an advertisement.
  - v. Make a purchase.
15. Along the way, at an appropriate time, let the person know that a more full presentation of the II capabilities is available (this present document).

## Part 7: Legal Considerations

### Collateral

You might be wondering how the II is able to start each PII account with \$25 ISI, with potentially 7 billion users signing up in the first 24 hours, which comes to roughly \$175 Billion USD, not counting the additional business and other accounts most people will be setting up as well.

One point of collateral is the strength of future earnings, as II will be receiving a percentage of all transactions run through the II.

Another point of collateral is quickly realized when you consider that God knows where all the yet-un-harvested gold, silver, diamonds, and other precious metals, stones, and commodities are located on the planet; not to mention hidden treasure troves.

Finally, when you realize that God is the maker of the earth and all that is in it, and inspired all that is good that is in it, you shouldn't have a problem seeing how God could put a small amount into each PII account during this launch, which is going to spur human productivity like nothing hitherto conceived.

See Part 2, "Business Aspects."

### Bank Transfers

The PII account, while resembling PayPal, presently is not based on an incorporated business within the present world infrastructure. It is part of the newly birthed kingdom of heaven on earth.

It (the angels) know you, your bank accounts, your history, your integrity (or some gradation thereof). The angels also know how electronic banking is done, what the requirements are, what they should be, what needs to be satisfied to stay within the spirit of the law.

So with your permission, they can link up your bank account with your PII account, quite rapidly, for depositing or withdrawing to/from your account(s).

These transactions will be notated as coming from or going to "PII", and the contact is readily available for everyone because the angel interface knows how to get answers to you for your questions via the II.

### Monetary

If you repeatedly violate the API3-Compliance stipulation for II content, your II service will be disabled until you repent (which entails having a broken heart, contrite spirit before God, recognizing you've been in the wrong on this, and committing to endeavor to obey this stipulation henceforth).

For a grace period of 30 days, your PII monetary account will remain as it was when you last used the II until your service is restored. This continued function could include things such as:

- out-laying auto-pay settings
- receiving of funds for products or services

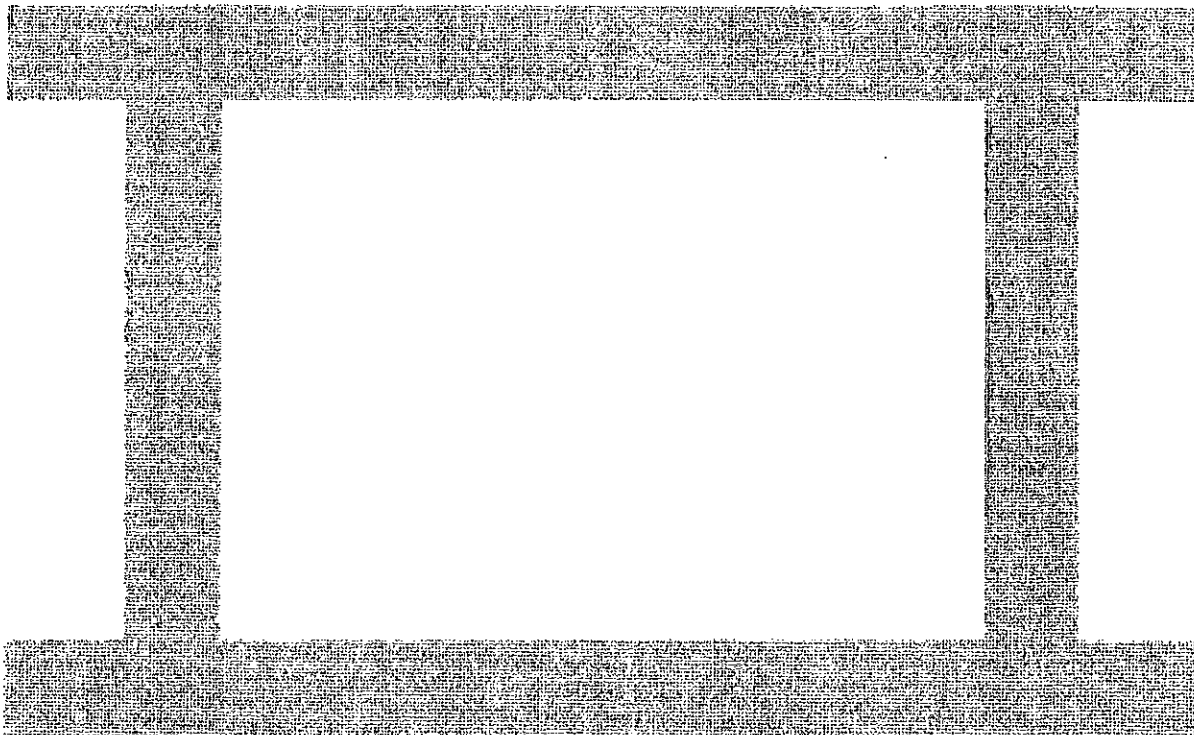

If your service is not restored within 30 days because you don't repent, then your incoming fund arrangements will be temporarily discontinued (until you repent). For example, if you're selling something through the II, it will no longer be available for purchase through the II.

You will be given a **grace period of 90 days** for financial obligations you are covering through the II on an auto-pay arrangement.

If your service is not restored within 90 days because you don't repent, then your **outlay of funds arrangements will be temporarily discontinued** (until you repent). This could include non-disruptive things like subscriptions, but could also include major obligations like mortgages. Therefore, if you have no intention of repenting within that time frame, you should make other arrangements to cover these obligations.

Once you repent, your monetary arrangements will be restored. Any exceptions or things that might require your attention will be presented to you for your decision.

If you have no intention of repenting and wish to withdraw the balance of your funds, put up a petition to your angels (God), and it will be done.

## Glossary

See also: “*Attributes*” section above

**akashic records** – a metaphysical reference to an ethereal body of information surrounding the Earth that is accessible through meditative means. For those familiar with this phenomenon (it is brought up regularly on Coast to Coast AM, for example), this can give you an analogous scenario to what I call the “heavenly repository” of information that the angels access to display to your mind via the II.

**AF13** – LDS Article of Faith 13 (cited above), Pearl of Great Price. Briefly: “We believe in being honest, true, chaste, benevolent, virtuous, and in doing good to all men... If there is anything virtuous, lovely, or of good report or praiseworthy, we seek after these things.” (Derived from Philip. 4:8 and 1 Cor. 13:7.)

**Daniel Stone** – A 25x25x25 foot marble stone I envision that will have exquisite artwork and text engravings with important messages, spoken of in Daniel 2.

**E-gadget** – electronic gadgets, such as computers, phones, notepads, readers, and other human-interaction electronic tools. AKA: “Technology 1.0”

**EST** – Eastern Standard Time (GMT -4)

**faithful LDS** – Saints who love the gospel and the scriptures and are valiant in their testimony of Jesus (will be welcome at the II<sup>TM</sup> Coming event).

**II** - Infinite Interface (said in abbreviated form as “I, I”, “eye to eye,” or “two” or “to”)

**ISI** – Immitable Sterling Instrument. A standard monetary unit for use with the II, which is roughly equivalent to a year 2000 US dollar – USD.

**LDS** – Latter-day Saints (Mormons); The Church of Jesus Christ of Latter-day Saints

**meritocracy** – A governing ideal in which the talented are chosen and moved ahead based on their achievement. (M-W)

**mind** – (1) brain thought process; (2) subconscious interaction access for (A) those with mental disabilities, (B) those who are spiritually adept.

**monetized** – content/services made available for a fee

**MST** – Mountain Standard Time (GMT -6)

**NDE** – near death experience

**PII** – “Pay To.” A functionality of the II that enables the receiving, storing, and remitting of funds

**repentance clause** – a term I coined pertaining to the provision that says that if society repents, then the destructions and captivity to which they are headed can be averted – tribulation can be turned away by repentance.

**screen** – The “frame” you are looking at is merely a point of focus and evocation of the capability. The content delivered directly to your mind via the angels.

**SHV** – Safe Haven Villages (.org), our 90-acre intentional community project ~3 miles northeast of Ephraim, Utah, USA

**SLC** – Salt Lake City
