# Theophany Postponed Again

by Sterling D. Allan, 228033

To: Tudor Dixon

Dec. 20, 2023 <8:34 am>

~~I had su~~ This piece is a continuation of the Theophany (along with Tudor Dixon) series and assumes the reader has been following along with that series, so if you've not been doing that, then you'll want to back up a bit. A couple of good places to start would be (A) 10/12 blog<sup>post</sup> "To Achieve Mahur's Morsanumer's Vision of God and All Things" followed by 11/16 "DSC 9311 Quest"; and (B) 11/24 blog post, "The Ultimate Cause (letter to Tudor)". Also, if you click on "(mouse over?) "Blog" on the IndComing.org site, you'll see a "Tudor" option, where the pieces to/about her role in all this (foreordained) is set forth.

Hello Tudor,

Last night, I was super-confident that the theophany would occur at 9:25 pm, launching the timeline scenario I've been mapping out using AB analysis. When it didn't, I stayed in the privacy of the toilet stall, if perhaps it would yet happen, staying through 10:05 pm (I didn't have a clock in there), which would be beyond the 12/29 date for you.

In the last ~15 mins, I began wondering what might be next, and I almost immediately came up with the idea of shifting (postponing) the entire time-

line (with some adjustments in duration between events) to start with the theophany occurring on 12/29. Remember, p. 1229 str. '07 has includes the ex theophany-relevant entries "vision(...); visit (ation); voice," which also fits well with <sup>Jesus'</sup> the 2nd Coming in glory to the S.U. after the acceptable year of the Lord when all that is up-side-down is set right-side-up.

I'm not so sure, though, that this postponement will be an improvement on the scenario I presented to start last night but didn't. Rather, it could be a work-around for you not having ~~you~~ been quite ready last night.

The reading in Sapphires this morning, talking about the need to have God guide your life [following intuition<sup>from message</sup>] was # 664. This made me think of "666 absence" — not stepping up, all in.

At 7:20 am, I <sup>pinned</sup> did this GOST query: "Q. Did Tudor get my letters yesterday via tp?" That would tell me a lot. The two places I "randomly" opened to seem very relevant. I rated them both a 9.5.

W. 40,41 T-G'13 Bosom [(A) You appreciate my work; (B) but not as much as your family (at least at this juncture. See Matt. 10:37).]; Bountifully [I've sent you a large volume of material in support of my paradigm]; Bow [(A) theophany pending; (B) You do respect my work]; Brake [You were close in momentum but let naysaying slow you down]; Bramble [not an easy scenario,

a bit psichly]; Branch [Zech. 3:8,9 - key r.c. verse]; Brazen Breach; Bread [I'm going to keep my Fast / ~~but~~ starvation diet going - <sup>+</sup>if anything to be in sympathy with (A) the scarcity of food in war-torn areas of turmoil; (B) natural disasters - hot areas; famine-struck areas; all of which we resolve, or at least significantly mitigate by evoking the r.c.]

# not just for this theophany  
# quest but also

PP. 362,3 Index'13 Tribe [family pressure]; Tribulation [(A) rock bottom is what we seek to avert by evoking the r.c.; (B) this present challenge/controversy];

Tribunal [~~being~~ weighing / discussing / debating what I'm presenting]; Tried [to the core at this pivotal juncture];

Trifle [dealing with people who get worked up about petty things]; Trim [<sup>lamp:</sup> wise vs. foolish virgins]; Trump [will yet];

Trodder [avert w/ r.c.]; Trouble [controversial] (compare Matt. 10:34 <I'm come to quell the sword> & three verses prior to what I cited shortly above); True [(A) III; (B) this scenario concept generally];

Trump [<sup>(A)</sup> MA GA Patriot Saints are likely to be first supporters of this cause; (B) ~~is~~ is presently heavily in the news with the CO supreme Court ruling on him not being able to be a candidate for Pres. (of course, he's always making the news)];

Trumpet [Your obligation (as a Christian) to be a light and proclaim boldly what God has manifest to you, especially on this matter where your "all-in" prerequisite requires this, pertaining to my message]; Trust [in God, not man];

(4)

Truth [should be our standard]."

I'd say I have around a 80% confidence from that that my recent letters were indeed t'd to you but that you weren't quite ready to go all-in on this. And I'm reminded from this that your speaking out publicly on my behalf is a crucial pre-requisite <sup>/part of</sup> to your achieving the "all-in" status that is required in order for you to have this theophany with me to launch the o.c. /going straight to the kingdom of heaven on earth.

I'll be finding out soon enough if those letters end up arriving at Mary's place, ~~to be~~ (Tudor Dixon c/o Mary) to be scanned and posted on my site - in other words that they were not t'd to you. That reality check will not deter me from pursuing this. What will stop me from pursuing you to answer my invite to play the role of ~~HFE~~ HMITF is if I hear from you, saying you're not interested /we declining.

### Postponed Timeline Scenario

While 12/29 looks like a good day for the theophany, to move the timeline back to then, there's some really interesting variables that I'll be considering. That's my next task: to analyze/intest /do AB studies to come up with a new timeline. That will take a few days.

Misc.

Last night, as I was prepping for the theophany, I looked again at p. 526 of WDT, the ASC II sum of "Tudor." Remember (11/26 blog piece), that is the page that has the HMITF-relevant entries, "messenger, Messiah, metagalaxy, metamorphosis, metaphor,"; and the facing page includes "Methuselah lived to 969 [well (ChofFB who wish) live through the Millennium]; meticulous; mfg.; mfr.; MI; Michigan; microphone [Rush's golden]."

Looking again, last night, I saw a couple I overlooked before.

- ~~to~~ metastasis A spread of cancer cells... [you're a survivor]
- meter ["G3384 meter mother"] [HMITF]  
That's huge.

H - metagalaxy, meteor, meteoric, meteorite

M - meter, Messiah, messenger

I

T

F - metastasis, mess, metabolism, metacarpus, metatarsus
