While Conservatives' dislike of Pelosi's activities & stances is widespread, I don't think the action vigilance is anywhere what it should be.

She was a primary driver in promoting the big lie that Biden won the 2020 election. And she was also primarily involved in highjacking the Jan. 6 pushback into a violent ransack of the Capital.

She was primarily responsible for declining Pres. Trump's request <sup>days prior</sup> to have 20k national guard troops come, saying it wasn't good optics. The optics she wanted was what she helped engineer for Jan. 6, including having the police unarm and stand down. And <sup>then</sup> positioning the FBI <sup>and Antifa</sup> agents provocateur. Her hands are the bloody ones.

"<sup>dictat</sup> Coup" is what she was a primary player in pulling off. That's treason. Not to mention she sits in the leadership of the Marxist Conspiracy to take down free America to bring in a global socialist/Communist dictatorship.
