There are several percolating developments that I see all pointing to us being maybe a couple of weeks-ish from a likely meltdown/societal collapse - bottom falling out - going to rock bottom, at which point the r.c. (see None to One: Evolving the Repentance Clause of Prophecy, available from IandComing.com) is no longer on the table as an option. The r.c. is to avert that. We can still avert it.

Briefly, I see three main things pointing to collapse, in this order of severity/causitive/trig-gering potential: ① WHO obtaining dictatorial power to declare a "potential" international health crisis as a reason to implement a digital passport (reign of beast); ② ~~WWIII~~ ^{and} on verge of going hot, with nuclear weapons; ③ Economic collapse. All these things are being pushed by the ever-increasing rate of exposure of the conspirators' lying, cheating, conniving, evil corruption. They don't want to be held accountable for their unsurpassed crimes against humanity. "Burn-it-down" is their go-to way out and modus operandi. (Ether 8:24 "For it [conspiracy] seeketh to bring to overthrow the freedom of all lands, nations, and countries; and it bringeth to pass

(2) the destruction of all people, for it is built up by the devil, who is the father of all lies...")

(2) The World Health Organization is presently in their second week of amending their policies / by-laws / rules. The conspiracy-controlled media is giving it no coverage, enabling this to unfold in stealth, removing U.S. and other nation sovereignty, even though the agenda is published openly. They're removing "non-binding" provisions so they will require compulsory obedience of all nations.

One possible triggering of such a global dictatorship is the open-sourced H1N1 virus with 60% kill rate, that is easy to deploy by unsophisticated groups. This is already a sufficiently dangerous "potential" to give the WHO cause to deploy their dictatorial plan. All of this could be ready to go within a week. Sen. Ron Johnson is pushing back. (Discussed this morning by Reggie Lottajohn on Frank Graffney's 3am (Mountain) RAU TV show. It's also been covered by several others previously.)

(3) Yesterday's (2/22) anniversary of Russia's invasion of Ukraine saw Putin & Biden amping up their inflammatory rhetoric. Putin's being pushed into a corner by the hawkish West, and he's withdrawing Russia from the New START nuclear agreement (that it has long been violating) and rolling out / deploying nuclear assets, bodes ill, as does China's

③

increasing their military support of Russia.

I had a thought yesterday, in learning about the nine nations that border Russia on the west ("Bucharest Nine"?), who Biden addressed a couple of days ago. They used to be USSR nations, which Putin wants to restore. It's 10 (Dan. 7; Rev. 13 "Beast" with "ten horns").

North Korea's KSM Jung Un is also showing himself getting trigger-happy with his nuclear-capable missiles.

China's maneuvers regarding Taiwan also bodes dark, especially with the U.S. sending so many of its military assets meant for Taiwan's defense to Ukraine instead — and its not being able to manage a two-front conflict/war.

③ Big stocks are hemorrhaging; Big Tech has been laying off thousands; ^{the} housing market is dropping significantly; U.S. debt = GDP, with interest rates making debt service henceforth increasingly onerous, exponentially; many antagonistic nations are abandoning the dollar; Steve Cortes provides a long list of economic indicators, which have buoyed the consumer's weak confidence, ^{which is} ~~is~~ being weakened by all the exposés of leftist criminality, which will likely contribute to yanking out that confidence, triggering rapid collapse.

④

We're quickly running out of time to evoke the r.c. to prevent these things from bringing us to the Dan. 12:1 & JS-Matt. 1:18 (in PGP) utter fall to a rock-bottom, worse than anything this planet has ever seen.

I'm still waiting for that one (♀) who will step forward to resolve the problem of "none to answer" (the r.c. option/path) to avert all this.
