Stragglers (B)

by Sterling D. Allan, 228033

June 22-23, 2023

This is my second listing of "to do" articles I've jotted down over time. I may yet get to some of these, but only so many hours in the day will likely prevent that for most of these. Since the titles usually summarize the message, I'd like to at least get titles out there to spur thought and positive change.

The previous/first "stragglers" piece (for Editorials) was dated 10/26/2022, with 12/28 update. Like that list, this present listing is also in reverse sequence of when I jotted them down, the most recent first.

Most of these are intended to be "Blog" (two steps ahead) articles.
