Back when I ran Free Energy News, with the regular sentiment of suppression of inventors and breakthrough technologies that could render fossil fuels obsolete, I would say, "Bullies rule by fear. If you have no fear, they have no power." I'd tell about a nature video I saw one time showing a cougar sneaking up on a baby raccoon which was playing near a stream. Suddenly, the cougar charged at the raccoon, but rather than running and becoming dinner, the raccoon began playing with the cougar. At first, the cougar looked confused, but then almost immediately engaged in playful activity with the raccoon. After about half a minute of that, the cougar walked off.

Fear is a primary tool of Satan and his disciples, which the Marxist conspirators are. Fear is the antonym of Faith in God. It activates the fight-or-flight response, which redirects blood from the brain to the limbs,

profoundly reducing clear, cognitive function. †

① That's why Rahm Emmanuel (sp?) says, "Never let a crisis go to waste." Keeping citizens amped up in Fear removes their logical pushback to the incremental increase of tyrannical measures.

--- This is ^{one of the reasons} why they also attack belief in God, because confidence in God is the primary antidote to Fear. ^{Stories of} Victory by God-loving people are replete in the Bible. Nothing Satan attempts will prevail against those who trust in God.

The Fruits of the Spirit come as a package: "love, joy, peace, longsuffering, gentleness, goodness, Faith, meekness, temperance." (Gal. 5:22.) Let us, as Christians, embody all these attributes as we engage in this battle against evil and push for the kingdom of heaven on earth. Let us embody "love your enemies" (Matt. 5:44), remembering that "perfect love casteth out Fear" (1 Jn. 4:18), neutralizing their primary tool.

I've Found these principles to work well in my
